SEALED BID
SALES INSTRUCTIONS TO BIDDERS

1. INVITATION TO BID

Bidders are cordially invited to submit a sealed bid for any or all of the bid items shown in the enclosed Sales Notice. All sales will be made under the terms and conditions attached to Saudi Aramco's standard Sales Agreement Form 2949 accompanying these Instructions.

2. BID SUBMISSION

Bidders shall submit a unit price for each item, and identify it by the corresponding bid item number and control number shown in the Sales Notice. A completed Saudi Aramco Bid Form 5010, signed by the bidder, must be deposited in Saudi Aramco's Sales Office Bid Box, located in MSB Building 1965, Room 832, Dhahran, no later than the bid closing time and date indicated in the enclosed Sales Notice. Bids must be submitted in a sealed envelope clearly marked.

BID ON SALES NOTICE NO. 700041

Bids which are not submitted in accordance with these Instructions, bids which are not accompanied by a sufficient deposit, or bids which are submitted with conditions of any kind may not be considered.

3. BID DEPOSIT

Bids shall be accompanied by a deposit, in the amount stipulated in the enclosed Sales Notice. The deposit shall be submitted in the form of a Saudi Aramco Cash Receipt (as evidence of a cash deposit made at a Saudi Aramco Cash Office), certified check, or bank guarantee/letter of credit in a form and from a bank acceptable to Saudi Aramco and shall be enclosed in the same sealed envelope with the bid. Bank guarantees must be valid for at least sixty days after the bid closing time and date. If Saudi Aramco does not accept your bid on any of the Goods, your bid deposit shall be promptly returned.

عطاء بالظرف المختوم
تعليمات إلى مقدمي عطاءات البيع

١- الدعوة إلى تقديم العطاءات

يسر أرامكو السعودية أن تدعو الراغبين إلى تقديم عطاءاتهم بطريقة الظرف المختوم عن أي أو جميع الأصناف المبينة في إعلان البيع المرفق. وستتم جميع عمليات البيع وفقاً للأحكام والشروط المرفقة باستمارة اتفاقية البيع الموحدة رقم ٢٩٤٩ الخاصة بأرامكو السعودية والمرافقة لهذه التعليمات.

٢- تقديم العطاءات

يجب تحديد ثمن كل بند يقدم عنه عطاء على حدة وتمييزه برقم البند ورقم الضبط الخاصين به والمبينين في إعلان البيع، ويجب إيداع استمارة أرامكو السعودية للعطاءات رقم ٥٠١٠، بعد تعبئتها وتوقيعها من صاحب العطاء، في صندوق العطاءات الخاص بمكتب مبيعات أرامكو السعودية الكائن في دائرة التموين، المبنى رقم ١٩٦٥، الغرفة رقم ٨٣٢ في الظهران، وذلك في موعد لا يتجاوز الوقت والتاريخ الموضحين في إعلان البيع المرفق.

ويجب أن تقدم العطاءات في ظرف مختوم مكتوب عليه بخط واضح عطاء لإعلان البيع رقم: 700041
ولن ينظر في العطاءات التي لا تقدم وفقاً لهذه التعليمات، أو التي لا يرفق بها التأمين الكافي، أو التي تقدم مقرونة بشروط من أي نوع كان.

٣- تأمين العطاء

يجب أن يكون العطاء مصحوباً بتأمين بالمبلغ المحدد في إعلان البيع المرفق. ويقدم التأمين على شكل إيصال قبض صادر عن أرامكو السعودية (إثباتا لدفع التأمين النقدي إلى أحد مكاتب الصرف في أرامكو السعودية) أو شيك معتمد أو ضمان مصرفي/كتاب اعتماد صادر بصيغة ومن مصرف مقبولين لدى أرامكو السعودية أو بطريقة أخرى تقبل بها أرامكو السعودية، يوضع في نفس الظرف المختوم مع العطاء. ويجب أن يكون الضمان المصرفي ساري المفعول لفترة لا تقل عن ستين يوماً من آخر وقت وتاريخ محددين لتقديم العطاءات. ويجب عدم وضع أي مبلغ نقدي مع العطاء. وإذا لم تقبل أرامكو السعودية عطاءكم المقدم عن أي من البضائع فيعاد تأمين ذلك العطاء دون إبطاء.

4. CURRENCY

Each bidder's bid, bid deposit, and payments must be submitted in the same currency, which currency must be either Saudi riyals or U.S. dollars.

٤- العملة

على أصحاب العطاءات أن يقدموا العطاءات والتأمينات والمدفوعات بنفس العملة، التي ينبغي أن تكون أما ريالات سعودية أو دولارات أمريكية.

5. BID DEFAULTS

Any successful bidder that does not complete the sale transaction in accordance with the conditions of sale attached to Saudi Aramco's standard Sale Agreement Form 2949 shall forfeit its entire bid deposit.

٥- التقصير في إكمال معاملات العطاء

كل صاحب عطاء فائز لا يكمل معاملات البيع وفقا لشروط البيع المرفقة باتفاقية البيع الموحدة، استمارة أرامكوً السعودية رقم ٢٩٤٩، يسقط حقه في استعادة تأمين العطاء بأكمله .

6. AWARDS

The awards for each bid item will be made to the highest bidder. Saudi Aramco reserves the right to withdraw any bid item from the Sales Notice, or to reject any or all bids, or to accept one bid and reject all others. Written notice will be given to successful bidders promptly following the bid closing date.

٦- إرساء المزاد

يرسى المزاد الخاص بكل بند من البنود المعروضة على صاحب أعلى عطاء. وتحتفظ أرامكو السعودية بحقها في أن تسحب من إعلان البيع أيا من بنود المزاد، أو أن تقرر رفض جميع العطاءات المقدمة أو أي منها أو أن تقبل عطاء واحداً وترفض جميع العطاءات الأخرى. ويبلغ أصحاب العطاءات الفائزة بإشعار مكتوب بعد آخر موعد لتقديم العطاءات دون تأخير .

7. LOADING

Although successful bidders are responsible for loading the Goods. Saudi Aramco may provide loading services if so requested and for a reasonable fee, whenever it has sufficient manpower and equipment available. Saudi Aramco shall not load the Goods until the successful bidder has paid such fee, cash in advance, and presented a Saudi Aramco cash receipt to the Saudi Aramco organization performing the loading service. Loading fees should not be included in the amount bid for the Goods.

TO ARRANGE FOR AN INSPECTION OF THE GOODS OR OBTAIN FURTHER INFORMATION, CONTACT SAUDI ARAMCO'S SALES OFFICE IN DHAHRAN.

Saudi Aramco will make the Goods or in the case of general supply and spare parts articles representative samples, available for inspection during regular work hours until the bid closing time and date.

To schedule a pre-bid inspection, arrange for an appointment with the Saudi Aramco Sales Representative, or obtain additional Saudi Aramco Bid Forms, please contact Saudi Aramco's Sales Office in Dhahran, telephone _____ .

٧- التحميل

يكون أصحاب العطاءات الفائزون مسئولين عن تحميل البضائع، ولكن يجوز لأرامكو السعودية أن تقدم خدمات التحميل، إذا طلب منها ذلك، مقابل أتعاب معقولة، عندما يكون لديها أيد عاملة ومعدات متوفرة لذلك. ولن تحمل أرامكو السعودية البضائع حتى يكون مقدم العطاء الذي رسا عليه المزاد قد دفع الأتعاب المذكورة نقدا ومقدما وقدم إيصال قبض صادرا عن أرامكو السعودية إلى دائرة أرامكو السعودية التي تقوم بخدمات التحميل. ويجب عدم إدخال أتعاب التحميل في مبلغ العطاء المقدم عن البضائع.

لإجراء الترتيبات لمعاينة البضائع أو الحصول على معلومات أخرى،اتصلوا بمكتب مبيعات أرامكو السعودية في الظهران.

تقوم أرامكو السعودية بعرض البضائع أو عينات تمثلها (بالنسبة للوازم العامة وقطع الغيار) لمعاينتها أثناء ساعات العمل العادية حتى آخر موعد لتقديم العطاءات.

و لترتيب موعد لمعاينة البضائع قبل تقديم العطاءات أو لتحديد موعد مع مندوب مبيعات أرامكو السعودية، أو للحصول على نسخ إضافية عن استمارة أرامكو السعودية للعطاءات، نرجو الاتصال بمكتب مبيعات أرامكو السعودية في الظهران على الهاتف_____ .

SELLER SHALL SELL AND BUYER SHALL PURCHASE THE GOODS ("Goods") DESCRIBED IN THIS SALE AGREEMENT ("Agreement") under the following terms and conditions:

يبيع البائع، ويشتري المشتري، البضائع (ويشار إليها بكلمة «البضائع» الموصوفة في اتفاقية البيع هذه (ويشار إليها بكلمة «الاتفاقية» ، وفقاً للأحكام والشروط التالية :

1. DISCLAIMER OF WARRANTY

THE GOODS ARE SOLD "AS IS, WHERE IS," WITHOUT ANY WARRANTY OR GUARANTEE AS TO MERCHANTABILITY, DESCRIPTION, QUALITY, CONDITION OR FITNESS FOR ANY PURPOSE: NOR IS THERE ANY OTHER WARRANTY, EXPRESSED OR IMPLIED, EXCEPT THAT SELLER HAS GOOD TITLE AND RIGHT TO SELL.

١- لا ضمان

تباع البضائع في حالتها الراهنة ومكانها الحالي بدون أي ضمان أو كفالة من حيث قابليتها للتسويق أو وصفها أو جودتها أو حالتها أو ملاءمتها لأي غرض، وليس هناك أي ضمان آخر، صريحاً كان أو ضمنياً، باستثناء أن للبائع حقاً ثابتاً في ملكية البضائع وأن له الحق في بيعها.

2. INSPECTION

Buyer acknowledges that he has either inspected the Goods and is satisfied as to their condition or has had the opportunity to inspect the Goods and has elected not to do so. If the Goods are a vehicle/vessel, Buyer shall be responsible for satisfying, at its own expense, any requirements for registering or licensing the vehicle/vessel in Buyer's name, and Buyer shall release Seller from and indemnify Seller against any liability whatsoever arising from Buyer's use or operation of the vehicle/vessel.

٢- المعاينة

يقر المشتري بأنه أجرى فحصاً على البضائع ورضي عن حالتها أو أنه قد أعطي الفرصة لفحص البضائع واختار ألا يفعل. وإذا كانت هذه البضائع سيارة/مركب، فإن المشتري يكون مسئولاً عن تلبية متطلبات تسجيلها أو ترخيصها باسمه وعلى حسابه الخاص، كما يكون عليه ضمان خلاص البائع وتعويضه بالنسبة لأية مطالبة، مهما كانت، تنشأ عن استعمال أو تشغيل المشتري لهذه السيارة/المركب.

3. CUSTOMS CLEARANCE

Within fifteen (15) calendar days of the date of Seller's notification of bid acceptance in a sealed bid sale, or within fifteen (15) calendar days of the date when Buyer accepts Seller's price in an accommodation sale, Buyer shall obtain, for Goods originally imported duty free for use in Seller's operations, customs clearance and endorsement on all copies of this Agreement, evidencing payment of or exemption from Saudi Arab customs duties or other import fees.

٣- الفسح الجمركي

خلال خمسة عشر (١٥) يوماً تقويمياً من تاريخ إشعار البائع بقبول العطاء المقدم في بيع بطريقة الظرف المختوم، أو خلال خمسة عشر (١٥) يوماً تقويمياً من تاريخ قبول المشتري بسعر البائع المعروض في بيع إسعافي، على المشتري أن يحصل، بالنسبة للبضائع التي تم استيرادها بدون جمارك لاستعمالها في أعمال البائع، على الفسح الجمركي ومصادقة سلطات الجمارك السعودية على جميع نسخ هذه الاتفاقية اثباتاً لقيامه بدفع الرسوم الجمركية أو رسوم الاستيراد الأخرى المستحقة للحكومة العربية السعودية، أو لإعفائه منها.

4. PAYMENT

a. Within fifteen (15) calendar days of the date of Seller's notification of bid acceptance in a sealed bid sale, Buyer shall pay the full sale price to Seller in the form of cash, certified check drawn on a local bank, or other guaranteed funds acceptable to Seller.

b. For sealed bid sales, Seller shall have the right to credit any bid deposit to the sale price or return it to Buyer in exchange for payment of the full sale price. If the Goods are determined by seller or Saudi Arab customs authorities to be non-exportable, Seller shall refund all amounts paid to Seller by Buyer.

c. Sales to Buyers that have a valid account with Seller may be handled under Paragraph 14.

٤- الدفع

أ) خلال خمسة عشر (١٥) يوماً تقويمياً من تاريخ إشعار البائع بقبول العطاء المقدم في بيع بطريقة الظرف المختوم يدفع المشتري إلى البائع ثمن البيع بالكامل نقداً أو بشيك معتمد مسحوب على بنك محلي أو بأموال مضمونة أخرى يقبل بها البائع.

ب) بالنسبة إلى البيع بطريقة الظرف المختوم يكون للبائع الحق في أن يقيد أي تأمين مقدم عن العطاء على حساب ثمن البيع، أو يعيده إلى المشتري مقابل دفع ثمن البيع بالكامل، وإذا قرر البائع أو سلطات الجمارك العربية السعودية أن البضائع لا يسمح بتصديرها، يرد البائع المبالغ التي دفعها المشتري إليه.

ج) يجوز معاملة البضائع المبيعة الى مشترين لهم حساب قائم مع البائع وفقا لأحكام الفقرة ١٤.

5. TAXES

Buyer shalll pay all applicable taxes resulting from this Agreement with the exception of Seller's income taxes, or provide Seller with valid tax exemption certificates.

٥- الضرائب

يدفع المشتري جميع الضرائب المنطبقة الناشئة عن هذه الاتفاقية، باستثناء ضرائب الدخل الخاصة بالبائع، أو يقدم إلى البائع شهادات سارية المفعول بالإعفاء من الضرائب.

6. TITLE AND RISK OF LOSS

Upon payment of the sale price and after Buyer obtains the required customs endorsement, title and risk of loss of the Goods shall pass to Buyer.

٦- حق الملكية وتبعة الهلاك

عند دفع ثمن البيع وبعد حصول المشتري على مصادقة الجمارك المطلوبة، ينتقل حق ملكية البضائع وتبعة هلاكها إلى المشتري.

7. DELIVERY

a. Seller shall provide loading services using Seller's equipment and operators for all of Buyer's purchases. Buyer agrees to pay a fixed fee for loading services, equivalent to 2 percent of the bid value of each lot, unless otherwise indicated in the notice of sale.

b. Within 30 calendar days of the date of Seller's notification of bid acceptance (or appropriate date given by Seller in individual cases), Buyer shall take delivery and remove the Goods from the delivery point at Buyer's cost. After this date, Seller shall have the right to cancel this Agreement by giving written notice of such cancellation to Buyer or charge Buyer for storing the goods at a charge equivalent to 250 Saudi riyals for each day, up to 60 calendar days from the expiration of the 30 days, after which the sale shall be automatically cancelled without notice. Seller shall have the right to charge Buyer for the cost of reselling the Goods, plus any loss incurred by Seller due to the difference between original sale price and the resale price.

c. Except as provided, Buyer's personnel and transport vehicles shall have access to Seller's premises only during Seller's regularly scheduled work hours. Should Buyer request permission to have access to Seller's premises outside Seller's regularly scheduled work hours, Seller may grant such permission for times which Seller, in its sole discretion, considers reasonable provided Buyer pays Seller for the extra cost of such services. Seller shall not provide such services until Buyer has paid such fee, cash in advance to Seller's cash office, and presented a copy of Seller's cash receipt to Seller's organization performing such services. Buyer, his agents, employees, and independent contractors shall abide by policies and rules governing the security and safety of Seller's personnel, property, and operations. Any Goods which fall from Buyer's carriers shall be promptly retrieved by Buyer and removed from Seller's premises.

d. Buyer shall clear the delivery site of all rubbish related to the sale. For scrap sales, Buyer shall remove remnants and debris. For sale of Goods in place, Buyer shall demolish and remove any foundations that exist and level the site. Buyer's equipment and operators for clearing the site must be Saudi Aramco-certified. If Buyer does not clear the delivery site of all rubbish within 90 calendar days after Seller's notice of bid acceptance, the charges for doing so shall be for the account of Buyer.

٧- التسليم

أ) يقدم البائع خدمات تحميل باستخدام معداته ومشغليه لجميع مشتريات المشتري، ويوافق المشتري على دفع رسم ثابت لقاء خدمات التحميل يعادل ٢ في المئة من قيمة العطاء لكل مجموعة بضائع، مالم تتم الإشارة إلى خلاف ذلك في إشعار البيع.

ب) خلال ثلاثين (٣٠) يوماً تقويمياً من تاريخ إشعار البائع بقبول العطاء (أو التاريخ المناسب الذي يحدده البائع في حالات فردية)، يقوم المشتري بتسلم البضائع وتحميلها ونقلها من نقطة التسليم على نفقة المشتري. ويكون للبائع بعد هذا التاريخ الحق في إلغاء هذه الاتفاقية بإعطاء المشتري إشعارا مكتوبا بالإلغاء، أو استيفاء رسم من المشتري عن تخزين البضائع يعادل ٢٥٠ ريالاً سعودياً عن كل يوم لغاية ستين (٦٠) يوماً تقويمياً من تاريخ انتهاء الثلاثين (٣٠) يوماً. وبعدها يلغى البيع تلقائياً دون الحاجة إلى إشعار. وللبائع الحق في أن يطالب المشتري بتكاليف إعادة بيع البضائع بالإضافة إلى أية خسائر يتكبدها البائع بسبب الفرق بين سعر البيع الأصلي وسعر إعادة البيع.

ج) باستثناء ما نص عليه فيما يلي، لا يكون لموظفي المشتري وسيارات النقل التابعة له الحق في الدخول إلى الأماكن التابعة للبائع إلا أثناء ساعات العمل الاعتيادية المقررة لدى البائع. وإذا طلب المشتري إذنا بالدخول إلى الأماكن التابعة للبائع خارج ساعات العمل الاعتيادية المقررة لدى البائع، يجوز للبائع منح هذا الإذن في أوقات يعتبرها البائع، بمحض تقديره وحده معقولة بشرط أن يدفع المشتري إلى البائع التكاليف الإضافية لهذه الخدمات. ولن يقدم البائع هذه الخدمات قبل أن يدفع المشتري الأجور المذكورة نقداً ومقدماً إلى صندوق البائع ويقدم نسخة من إيصال البائع بالقبض إلى الدائرة التابعة للبائع التي تؤدي هذه الخدمات. ويتقيد المشتري ووكلاؤه وموظفوه والمقاولون المستقلون الذين يتعامل معهم بالخطط والقواعد التي تحكم أمن وسلامة موظفي البائع من وسائل النقل التابعة له ويزيلها من الأماكن التابعة للبائع.

د) على المشتري أن يخلي موقع التسليم من جميع الفضلات الناتجة عن البيع. وفيما يتعلق ببيعات الخردة، يجب على المشتري أن يزيل النفايات والأنقاض. أما فيما يتعلق ببيع البضائع القائمة في مكانها، فيجب على المشتري أن يهدم ويزيل الأساسات، إذا وجدت، وأن يسوي موقعها. ويجب أن تكون معدات المشتري ومشغلوها المستخدمون في تنظيف الموقع معتمدين من قبل أرامكو السعودية. وإذا لم يقم المشتري بتنظيف موقع التسليم من جميع الفضلات خلال تسعين (٩٠) يوماً تقويمياً بعد إشعار البائع له بقبول العطاء فتكون تكاليف ذلك على حساب المشتري.

8. LIABILITY

THE GOODS MAY BE HAZARDOUS, MAY CONTAIN HAZARDOUS SUBSTANCE OR MAY BECOME HAZARDOUS DURING USE, DISMANTLING, REMOVAL, HANDLING, TRANSPORT, CLEANING OR RECONDITIONING. BUYER SHALL INDEMNIFY AND HOLD SELLER AND ITS AFFILIATED COMPANIES AND THEIR PERSONNEL HARMLESS AGAINST ANY AND ALL CLAIMS. DAMAGES OR CAUSES OF ACTIONS FOR INJURIES OR DEATH TO PERSON AND DAMAGE OR LOSS TO PROPERTY, ARISING OUT OF OR IN ANY WAY CONNECTED WITH THIS AGREEMENT OR THE GOODS.

9. BREACH

If Buyer commits any breach of this Agreement, Seller shall have the right to cancel this Agreement in whole or in part by giving Buyer written notice, without prejudice to Seller's right to claim any additional damages or to pursue any other remedy provided by law, however, neither party shall be liable to the other party for consequential damages. If Buyer does not pay the full sale price in accordance with Paragraph 4, Buyer shall forfeit any bid deposit.

10. FORCE MAJEURE

"Force majeure" shall mean any act, event, cause, or occurrence which is not within the reasonable control of a party and which renders that party unable to perform its obligations.

If a party is unable to perform any of its obligations as a result of force majeure, performance of such obligations shall be excused during the period of force majeure. Such party shall immediately give written notice to the other party of the date of inception of the force majeure condition and the extent to which it will affect performance.

After thirty (30) cumulative days of force majeure affecting a party's performance, the other party shall have the right to cancel this Agreement in whole or in part by giving written notice. Neither party shall have any liability to the other to costs or damages arising out of such cancellation.

11. CONFLICT OF INTEREST

Except for customary promotional material and occasional business entertainment, limited in value in any instance to the reasonable cost of a lunch or dinner. Buyer shall not give, directly or indirectly, any money, personal services, credit, or other things of value to Seller or any employee of Seller or its affiliated or related companies, or to its agents or independent contractors to influence the award of this Agreement, its terms, performance, administration, extension, or cancellation.

Buyer, by acceptance of this Agreement, confirms that to the best of its knowledge no such gifts have been made,

٨- المسئولية

قدتكون البضائع خطرة أو تحتوي على مواد خطرة أو تصبح خطرة أثناء استعمالها أو تفكيكها أو إزالتها أو مناولتها أو نقلها أوتنظيفها أو ترميمها ويتعهد المشتري بأن يعوض البائع ويتحمل عنه وعن الشركات المنتسبة إليه وموظفيها جميع المطالبات أو التعويضات أو أسباب الدعاوى بشأن إصابة أو وفاة الأشخاص، أو الأضرارأو الخسائر التي تلحق بالممتلكات مما ينشأ أو يتعلق بأي حال من الأحوال بهذه الاتفاقية أو البضائع.

٩- الإخلال بالاتفاقية

إذا أخل المشتري بأي شكل بأحكام هذه الاتفاقية فيكون للبائع الحق في إلغاء هذه الاتفاقية، كلها أو بعضها، وذلك بإشعار كتابي إلى المشتري، دون المساس بحق البائع في المطالبة بأية تعويضات إضافية أو اللجوء إلى أية وسيلة قانونية أخرى. ويشترط مع هذا ألا يكون أي من الطرفين مسئولاً تجاه الآخر عن أية تعويضات استتباعية. وإذا لم يدفع المشتري ثمن البيع بالكامل وفقاً للفقرة ٤، يسقط حق المشتري في أي تأمين مقدم عن العطاء.

١٠- القوة القاهرة

تعنى «القوة القاهرة» أي فعل أو حدث أو سبب أو واقعة مما يخرج منطقياً عن سيطرة أي من الطرفين ويجعل أحد الطرفين غير قادر على الوفاء بالتزاماته.

وإذا لم يستطع أي من الطرفين أن ينفذ أيا من التزاماته بسبب قوة قاهرة، يعفى من تنفيذ ذلك الالتزام أثناء فترة القوة القاهرة ويجب على ذلك الطرف أن يعطي الطرف الآخر فوراً إشعارا مكتوبا يخطره فيه بتاريخ بدء ظرف القوة القاهرة ومدى تأثير ذلك الظرف على التنفيذ.

وبعد أن تبلغ مدة القوة القاهرة التي تؤثر في تنفيذ أحد الطرفين ثلاثين (٣٠) يوماً تراكمياً يكون للطرف الآخر الحق في أن يلغي هذه الاتفاقية كلياً أو جزئياً بتقديمه إشعارا كتابيا بذلك. ولن يترتب على هذا الإلغاء أية مسئولية على أي من الطرفين تجاه الطرف الآخر عن أية تكاليف أو تعويضات تنشأ عن هذا الإلغاء.

١١- تعارض المصالح

باستثناء المواد الترويجية المعهودة والدعوات التي توجه في بعض المناسبات للعملاء والتي لا تتجاوز قيمتها في المناسبة الواحدة الثمن المعقول لوجبة غداء أو عشاء، لا يجوز للمشتري أن يعطي، بصورة مباشرة أو غير مباشرة، أية أموال أو يقدم أية خدمات شخصية أو قروض أو أشياء أخرى ذات قيمة إلى البائع أو أي من موظفي البائع أو موظفي الشركات المنتسبة إليه أو المرتبطة به أو وكلائه أو المقاولين المستقلين الذي يتعامل معهم للتأثير على عقد هذه الاتفاقية أو التأثير على أحكامها أو تنفيذها أو تمديدها أو إلغائها.

ويؤكد المشتري، بقبوله هذه الاتفاقية، انه،حسب معرفته وعلمه،لم تقدم أية هدايا مماذكر وانه سيبذل قصارى جهده للتأكد من عدم تقديم أية هدايا وأنه سيبلغ البائع في الحال اذا علم فيما بعد بتقديم أية هدية من هذا القبيل.

that it will use its best effort to ensure that none are made, and that it will inform Seller at once should it learn that any such gifts have been made.

Any violation of this provision shall constitute a material breach of this Agreement which, without prejudice to Seller's right to enforce any other remedy provided by law, shall empower Seller to cancel this Agreement and claim damages including but not limited to increased costs incurred by Seller as a result of such breach.

وتشكل أية مخالفة لهذا الشرط إخلالا جوهرياً بشروط هذه الاتفاقية يخول البائع، دون المساس بحقه في اللجوء إلى أية وسيلة قانونية أخرى، حق إلغاء هذه الاتفاقية والمطالبة بالتعويضات بما في ذلك، على سبيل المثال لا الحصر، الزيادة في التكاليف التي يتكبدها البائع نتيجة الإخلال المذكور.

12. APPLICABLE LAW

This Agreement shall be governed by and interpreted in accordance with the laws of Saudi Arabia.

١٢-القانون الواجب التطبيق

يسري على هذه الاتفاقية وعلى تفسيرها قوانين المملكة العربية السعودية.

13. NOTICES

Notices given pursuant to this Agreement shall be effective on the date of dispatch.

١٣-الإشعارات

تكون الإشعارات التي تعطى بموجب هذه الاتفاقية سارية المفعول اعتبارا من تاريخ إرسالها.

14. SETOFF

Upon written notice, any sum payable to Seller by Buyer under this Agreement may be set off by Seller against any sum payable to Buyer by Seller under any other Agreements between Buyer and Seller.

١٤-المقاصة

يجوز للبائع لدى إرساله إشعارا مكتوبا إلى المشتري أن يجري مقاصة بين أي مبلغ مستحق الدفع من المشتري إلى البائع بموجب هذه الاتفاقية وأي مبلغ مستحق الدفع من البائع إلى المشتري بموجب أية اتفاقيات أخرى مبرمة بين المشتري والبائع.

15. RE-EXPORT

Without seller's written approval, buyer shall not re-export goods originally imported.

١٥-إعادة التصدير

لا يحق للمشتري إعادة تصدير البضائع المستوردة أصلاً بدون موافقة البائع الخطية.

16. CONTINUING OBLIGATIONS

The provisions of the following paragraphs are continuing ones and their continuing binding effect shall survive the completion or cancellation of this Agreement: Paragraphs 1, 5, 8, 11 and 15.

١٦-الالتزامات المستمرة

أحكام الفقرات **١** و **٥** و **٨** و **١١** و **١٥** مستمرة ويبقى أثرها ملزماً إلى ما بعد انتهاء هذه الاتفاقية أو إلغائها.

17. CONCLUDING PROVISIONS

a. This Agreement shall not be assigned by Buyer without Seller's prior written consent.

b. This Agreement shall only be amended by a writing signed by both parties.

c. No waiver of a right by either party shall be effective unless made expressly and in writing by such party.

d. This Agreement contains all of the terms and conditions applicable to this sale and it supersedes any prior correspondence, proposals or agreements, written or oral, not stated in this Agreement.

١٧-أحكام ختامية

أ) لا يجوز للمشتري أن يحول هذه الاتفاقية بدون موافقة مكتوبة مسبقة من البائع.

ب) لا يجوز تعديل هذه الاتفاقية إلا بمستند مكتوب موقع من قبل لطرفين.

ج) لا يكون تنازل أي طرف عن حق من حقوقه نافذاً إلا إذا عبر الطرف المذكورعن ذلك صراحة وكتابة.

د) تتضمن هذه الاتفاقية جميع الأحكام والشروط المنطبقة على هذا البيع، وهي تحل محل أية مراسلات أو عروض أو اتفاقيات سابقة، أكانت مكتوبة أو شفهية، لم تدون في هذه الاتفاقية.

Signature of Buyer _____ توقيع المشتري

ATTACHMENT TO CONDITIONS OF SALE

ملحق بشروط البيع

BIDDER'S SAFETY AND
LOSS PREVENTION REQUIREMENTS

متطلبات السلامة ومنع الخسائر المطلوبة من مقدم العطاء

1 COMPLIANCE WITH SAFETY RULES

BIDDER shall at all times comply with, and ensure that its employees, agents and subcontractors comply with, all SAUDI ARAMCO Safety and Loss Prevention rules and regulations. BIDDER shall also take, or cause to be taken, any additional measures which the Company representative may direct to protect against injury to or death of any person or damage to or loss of any property during BIDDER's performance of the WORK.

١ - التقيد بقواعد السلامة

على مقدم العطاء أن يتقيد في كل الأوقات بجميع قواعد وانظمة السلامة ومنع الخسائر في ارامكو السعودية وأن يتأكد من أن موظفيه ووكلاءه ومقاوليه من الباطن يتقيدون بها . وعلى مقدم العطاء ايضا أن يتخذ أو يأمر باتخاذ أية اجراءات اضافية قد يوجه بها ممثل الشركة للوقاية من اصابة أو وفاة أي شخص وتلف أو فقد أية ممتلكات اثناء تنفيذ مقدم العطاء للعمل.

2 DEVIATIONS FROM SAFETY RULES

Any deviation by BIDDER from SAUDI ARAMCO's Loss Prevention rules and regulations must be approved in writing in advance by Company Representative.

٢ - تجاوز قواعد السلامة

يجب أن يوافق ممثل الشركة كتابة ومقدما على أي تجاوز من قبل مقدم العطاء لقواعد وانظمة منع الخسائر في ارامكو السعودية.

3 FAILURE TO COMPLY

Should BIDDER fail to comply with the Safety and Loss Prevention requirements, SAUDI ARAMCO shall notify BIDDER in writing. BIDDER shall, upon being advised of its non-compliance, immediately take all corrective action required to comply. Such corrective action shall, unless provided otherwise in this Sales Agreement, be taken at BIDDER's expense. If BIDDER fails to take such corrective action promptly, Company Representative may direct the BIDDER to suspend all or part of the Sales Agreement until satisfactory corrective action has been taken. Costs incurred by BIDDER as a result of such suspension shall be for BIDDER's account.

٣ - التقصير في التقيد بالمتطلبات

اذا قصر مقدم العطاء في التقيد بمتطلبات السلامة ومنع الخسائر فستبلغ ارامكو السعودية مقدم العطاء كتابة بذلك. وعلى مقدم العطاء حال اشعاره بعدم تقيده أن يبادر فورا الى اتخاذ جميع الاجراءات التصحيحية اللازمة للتقيد بالمتطلبات. ويتخذ هذا الاجراء التصحيحي على حساب مقدم العطاء ما لم ينص بخلاف ذلك في اتفاقية البيع هذه. واذا قصر مقدم العطاء في اتخاذ الاجراء التصحيحي المطلوب دون ابطاء يجوز لممثل الشركة أن يوجه مقدم العطاء بايقاف اتفاقية البيع كلها أو جزء منها الى أن يتم اتخاذ الاجراء التصحيحي بشكل مرض . وتقيد التكاليف التي يتكبدها مقدم العطاء كنتيجة للايقاف المذكور على حساب مقدم العطاء.

4 SAUDI ARAMCO ASSISTANCE

BIDDER may request assistance from SAUDI ARAMCO with respect to the implementation of its Loss Prevention requirements. Company Representative, or such party or parties designated by him, will assist BIDDER by explaining good safety practices, pointing out unsafe WORK site conditions, and by applying his/their experience and judgement in order to assist BIDDER in improving WORK safety. It is understood, however, that rendition of such assistance by SAUDI ARAMCO will in no way relieve BIDDER of its responsibilities as set forth hereinabove.

٤ - مساعدة ارامكو السعودية

يجوز لمقدم العطاء أن يطلب مساعدة ارامكو السعودية فيما يتعلق بتطبيق متطلبات منع الخسائر لديها. وسيساعد ممثل الشركة، أو أي طرف آخر/اطراف أخرى يعينه/يعينها هو، مقدم العطاء بايضاح ممارسات السلامة الجيدة وتبيين الظروف غير الآمنة في موقع العمل وبالاستفادة من خبرته/خبرتهم وحسن تقديرهم لمساعدة مقدم العطاء في تحسين وضع السلامة في العمل. غير أنه من المفهوم أن تقديم ارامكو السعودية لتلك المساعدة لن يعفي مقدم العطاء بأي شكل من الأشكال من مسئولياته كما ادرجت أعلاه.

5 WORK PERMITS

BIDDER shall obtain a work permit (SAUDI ARAMCO Form 924) each day for any WORK to be carried out during such day in any SAUDI ARAMCO specified "Restricted Area". Company Representative shall give guidance on Restricted Area locations. All work permit procedures shall be carried out by BIDDER in accordance with SAUDI ARAMCO GI 2.100, which by this reference is made part of this Sales Agreement.

٥ - أذون العمل

على مقدم العطاء أن يحصل على اذن عمل (استمارة ارامكو السعودية ٩٢٤) في كل يوم لأي عمل يراد القيام به أثناء ذلك اليوم في أي منطقة تصنفها ارامكو السعودية باعتبارها "منطقة محظورة". ويقدم ممثل الشركة الارشاد بالنسبة لمواقع المناطق المحظورة. وعلى مقدم العطاء تنفيذ جميع اجراءات أذون العمل وفقا للتعليمات العامة رقم ٢-١٠٠ في ارامكو السعودية التي تصبح بهذه الاشارة جزءا من اتفاقية البيع هذه.

6 WELDING AND CUTTING EQUIPMENT

All welding and cutting equipment shall be of a SAUDI ARAMCO approved type and maintained in good condition.

٦ - معدات اللحام والقص

يجب أن تكون جميع معدات اللحام والقص من أنواع معتمدة لدى ارامكو السعودية ويجب أن يتم الاحتفاظ بها في حالة جيدة.

7 PERSONAL PROTECTIVE EQUIPMENT

BIDDER shall provide, maintain and enforce the use of the items of personal protective equipment listed in SAUDI ARAMCO's publication entitled "Contractor's Personal Protective Equipment Requirements".

٧ - معدات الوقاية الشخصية

على مقدم العطاء توفير بنود معدات الوقاية الشخصية المدرجة في نشرة ارامكو السعودية المعنونة "متطلبات معدات الوقاية الشخصية الخاصة بالمقاول" وعليه صيانتها وفرض استعمالها.

8 TOOLS AND PORTABLE POWER TOOLS

BIDDER shall ensure that all tools provided by BIDDER are suitable for the job in hand, free from defects, and maintained in good order.

٨ - الأدوات والأدوات الكهربائية المتنقلة

على مقدم العطاء أن يتأكد من أن جميع الأدوات التي يقدمها مقدم العطاء مناسبة للعمل المراد القيام به وأنها خالية من العيوب وتجري المحافظة عليها في حالة جيدة.

9 LADDERS

BIDDER shall ensure that only metal or timber ladders of SAUDI ARAMCO approved type are provided and used for ingress to and egress from WORK places where other means of ingress and egress are not available.

٩ - السدرج

على مقدم العطاء أن يتأكد من أن الدرج الذي يتم تقديمه واستعماله في الدخول الى أماكن العمل والخروج منها حيث لا تتوفر وسائل أخرى للدخول والخروج ، مصنوع من المعدن أو الخشب فقط وأن ارامكو السعودية قد اعتمدته.

10 SCAFFOLDING

BIDDER shall provide and cause to be used scaffolding, platforms or temporary floors for all WORK which cannot be done safely from the ground, from a ladder. All scaffolding shall be constructed of SAUDI ARAMCO approved metal components and erected to comply with the requirements.

١٠- السقالات

على مقدم العطاء أن يقدم السقالات أو المنصات أو الأرضيات المؤقتة وأن يطلب استعمالها لأداء جميع العمل الذي لا يمكن أداؤه بأمان من على الأرض أو من على الدرج. يتم تركيب جميع السقالات من قطع معدنية معتمدة لدى ارامكو السعودية ويتم انشاؤها وفقا للمتطلبات.

11 ELECTRICAL INSTALLATIONS AND EQUIPMENT

All material and equipment used in temporary electrical installations shall be of a SAUDI ARAMCO approved type and maintained in good condition.

BIDDER shall ensure that all 120 volt single phase 15 and 20 ampere receptacle outlets which are not a part of the permanent wiring of any building or structure shall have ground fault circuit interrupters for personal protection.

١١- التركيبات والمعدات الكهربائية

يجب أن تكون جميع المواد والمعدات المستخدمة في التركيبات الكهربائية المؤقتة من نوع معتمد لدى ارامكو السعودية ويجب المحافظة عليها بحالة جيدة.

على مقدم العطاء أن يتأكد من أن جميع مخارج المقابس جهد ١٢٠ فلط وبطور واحد قوة ١٥ و ٢٠ أمبير التي لا تشكل جزءا من الأسلاك الدائمة لأي مبنى أو هيكل تحتوي على قاطعات تيار مؤرضة للحماية الشخصية.

12 CRANES AND RIGGING EQUIPMENT

BIDDER shall ensure that all lifting appliances and every part thereof, including all working gear, and all other plant or equipment for anchoring or fixing such appliances shall be of good mechanical construction, sound material, adequate strength and free from patent defect and be properly inspected an maintained. All chains, hooks, slings, shackles and other equipment used for raising or lowering on a lifting appliance shall be of a SAUDI ARAMCO approved type and maintained in good condition.

١٢- الرافعات ومعدات تثبيت الأحمال

على مقدم العطاء أن يتأكد من أن جميع معدات الرفع وكل مكوناتها بما في ذلك جميع التروس العاملة وجميع الأدوات أو المعدات الأخرى الخاصة بوضع أو تثبيت معدات الرفع في حالة ميكانيكية جيدة ومصنوعة من مواد جيدة وذات قوة مناسبة وخالية من العيوب الواضحة وأنه تجري معاينتها وصيانتها بصورة صحيحة. ويجب أن تكون جميع السلاسل والخطافات والحمالات والشكالات والمعدات الأخرى التي تستخدم في الرفع أو الانزال على معدات رفع من نوع معتمد لدى ارامكو السعودية وأن تتم صيانتها بحالة جيدة.

13 MECHANICAL EQUIPMENT

BIDDER shall ensure that all mechanical equipment provided is of a SAUDI ARAMCO approved type and maintained in good working order.

All moving parts of any equipment shall be securely guarded so as to prevent access to the moving parts by persons working on or passing through the WORK site.

١٣- المعدات الميكانيكية

على مقدم العطاء أن يتأكد من أن جميع المعدات الميكانيكية التي تقدم هي من نوع معتمد لدى ارامكو السعودية وأنه يجري المحافظة عليها في حالة تشغيل جيدة.

يجب أن تكون جميع الأجزاء المتحركة في أية قطعة معدات محكمة الوقاية بحيث لا يتمكن الأشخاص الذين يعملون في موقع العمل أو يمرون به من الوصول اليها.

14 SAUDI ARAMCO PLANT OPERATIONS

BIDDER shall ensure that BIDDER's personnel and the personnel of its subcontractors do not open or close any valves, electrical switches, or operate any other piece of SAUDI ARAMCO plant without the prior approval of SAUDI ARAMCO and then only under the direct supervision of the supervising operator or plant foreman.

١٤- اعمال المنشآت في ارامكو السعودية

على مقدم العطاء أن يتأكد من أن موظفيه وموظفي مقاوليه من الباطن لا يفتحون أو يغلقون أية صمامات أو مفاتيح كهربائية أو يشغلون أية قطعة معدات أخرى في منشأة ارامكو السعودية دون الحصول على موافقة مسبقة من ارامكو السعودية وأن لا يتم ذلك إلا تحت الاشراف المباشر لرئيس المشغلين أو ملاحظ أشغال المنشأة.

15 TRANSPORTATION

BIDDER shall ensure that passengers shall travel only in vehicles that are provided with SAUDI ARAMCO approved passenger seats. This requirement shall apply while travelling to and from the WORK site and during travel on the WORK site. Seat belts shall be installed and used in all vehicles carrying personnel (except in the case of buses where seat belts are mandatory only for the driver).

١٥- النقـــل

على مـقـدم العطاء أن يتـأكـد من أن الموظفين لا يركـبـون إلا السـيـارات المزودة بمقـاعـد للركـاب مـعـتـمدة لدى ارامكو السـعـودية . وهذا الشـرط ينطبق أثناء الانتـقـال الى ومن مـوقع العـمل وأثناء الانتـقـال في مـوقع العـمل. ويجب أن يتم تركـيب احزمة السلامة واستعمالها في جميع السيارات التي تنقل الموظفين (باسـتـثناء الحـافلات حيث يلزم السائق فقط باستعمال حزام السلامة).

16 INJURY AND DAMAGE REPORTING

BIDDER shall ensure that an immediate oral report is made to Company Representative in the case of all:

- Fatal injuries;
- Injuries requring medical attention which result in lost time;
- Damage over SR10,000 to BIDDER's plant or equipment;
- Damage, in any amount, to SAUDI ARAMC O's equipment or property; and
- Fires.

In the case of fatal or non-fatal injuries, oral reports shall be followed promptly by a written report on SAUDI ARAMCO Form No. 6437 - "Contractor's Personal Injury Report". For accidents involving damage only, a full written report shall be forwarded to Company Representative promptly after the occurrence.

١٦- الابلاغ عن الاصابة والتلف

على مقدم العطاء أن يتاكد من تقديم تقرير شفوي فوري الى ممثل الشركة في جميع الحالات التالية:

- الاصابات المميتة.
- الاصابات التي تتطلب عناية طبية وينتج عنها وقت ضائع.
- تلف أدوات أو معدات مقدم العطاء بما يزيد على ١٠٠٠٠ ريال سعودي.
- تلف معـدات أو ممتلكات ارامكو السـعـودية مهما كان مبلغ هذا التلف.
- الحرائـق.

في حالة الاصابات المميتة أو غير المميتة يجب أن يلحق التقرير الشفوي دون ابطاء بتقرير مكتوب على اسـتـمـارة ارامكو السـعـودية رقم ٦٤٣٧ "تقرير عن اصـابة موظفي المقاول". أما بالنسبة للحوادث التي يترتب عليها تلف فقط فيجب تقديم تقرير كتابي كامل الى ممثل الشركة دون ابطاء عقب وقوع الحادث.

17 FIRE PREVENTION

BIDDER shall provide and maintain in good working order adequate fire fighting equipment. All BIDDER's personnel shall be properly trained in the use of such equipment.

١٧ - منع الحرائق

على مقدم العطاء أن يقدم معدات اطفاء الحرائق المناسبة وأن يحافظ عليها في حالة تشغيل جيدة. ويجب أن يكون جميع موظفي مقدم العطاء مدربين بصورة صحيحة على استعمال تلك المعدات.

18 FIRST AID SUPPLIES

The BIDDER shall provide and maintain adequate first aid supplies at the WORK site.

١٨ - لوازم الاسعاف الأولي

على مقدم العطاء أن يقدم لوازم الاسعاف الأولي المناسبة في موقع العمل وأن يحافظ عليها.

" SAUDI ARAMCO SEALED BID SALES
INSTRUCTIONS TO BIDDERS "

SAFETY WARNING TO BIDDERS

Your company has been informed of the surplus goods being offered for sale by SAUDI ARAMCO on _____.

SAUDI ARAMCO wishes to notify you that the goods are considered to be hazardous, toxic, flammable and may contain dangerous substance.

Once the successful bidder takes possession of these goods, he assumes full responsibility to safeguard, store and utilize them in a prudent and safe manner with due regard for the lives and property of others and to dispose of any residue in accordance with Saudi Arabian law. ANY LIABILITY ASSOCIATED WITH UTILIZING OR DISPOSING OF THE GOODS IS BUYER'S RESPONSIBILITY in accordance with Clause (8) of the conditions of Sale.

If your company has any question concerning this letter, please do not hesitate to contact the Sales Unit at Telephone No. 874-0277.

(تنبيـــــــــــه)

تنفيذا لشروط البيع يجب على جميع المزايدين التأكد من صحة أرقام البنود التي ذكروها في عطاءاتهم والتي يرغبون في المزايدة عليها وكذا الأسعار التي تقدموا بها ومراجعتها جيدا وذلك قبل تسليم عطاءاتهم لأن الشركة لن تقبل إطلاقا أية أعذار بحجة السهو أو الخطأ مهما كانت مناسبة للمعروض فعليا للبيع لكل بند من عدمه.

NOTICE

AS PER CONDITIONS OF SALE, ALL BIDDERS MUST RE-CHECK THEIR BID LOT NUMBERS AND THEIR PRICES BEFORE SUBMITTING THEM. SAUDI ARAMCO WILL NOT ACCEPT ANY CLAIMS FOR WRONG POSTING. ALL BID LOT NUMBERS AND BID PRICES WILL BE ACCEPTED AS SUBMITTED FRO EACH LOT. NO CONSIDERATIONS WILL BE GIVEN FOR REVISONS TO THE ORIGINAL BID LOT NUMBERS AND PRICES REGARDLESS OF THE REASONS.

Disclaimer

Certain sections of this Bid Package may not have been translated into Arabic at the date of signature. It is the intention of the parties that these sections be translated into Arabic and incorporated into the Contract on an as-needed basis. Until such time as they are translated, the English text of those provisions shall constitute the sole statement of the agreement between the parties in regard to the matters covered therein.

إشعار إخلاء مسؤولية

قد لا تكون بعض بنود ملف العطاء قد تُرجِمت إلى اللغة العربية في تاريخ توقيع المقاولة، وينوي الطرفان ترجمة هذه البنود إلى اللغة العربية وإدراجها في المقاولة حسب الحاجة. وإلى حين إتمام هذه الترجمة، يظل النص الإنجليزي للبنود المذكورة هو الصيغة الوحيدة لاتفاق الطرفين بشأن الأمور الواردة فيها.

Saudi Aramco: Company General Use

1.0 PURPOSE

This General Instruction (GI):

1.1 Specifies the requirements for testing and certification of Saudi Aramco and contractor onshore and offshore heavy equipment operators.

1.2 Identifies personnel authorized to operate and/or drive Heavy Equipment and Industrial Vehicles.

1.3 Identifies personnel authorized to rig/sling loads in support of lifting operations.

1.4 Identifies the USER/PROPONENT responsibilities to certify heavy equipment operators.

1.5 Improves Saudi Aramco and contractor safety performance when using heavy equipment.

2.0 REFERENCES

It shall be the responsibility of Saudi Aramco USERS and contractors to be familiar with the current version of the publications referenced below.

API: American Petroleum Institute

A) API - SPEC 2C Offshore Pedestal-mounted Cranes-2012
B) API – RP 2D Operation and maintenance of Offshore Cranes (7th Edition-2014)
C) GI 6.001 Notification Requirements for Incidents
D) GI 6.003 Incident Investigation
E) GI 7.024 Marine and Offshore Crane, Hoist and Rigging Operations
F) GI 7.026 Cranes and Heavy Equipment Accident Reporting Procedures
G) GI 7.028 Crane Lifts: Types and Procedures
H) Saudi Aramco Construction Safety Manual
I) Saudi Aramco Medical Services Policy MSP-98, Attachment E "Mobile Heavy Equipment Operators"
J) Saudi Aramco Safety Handbook
K) Saudi Aramco Job Training Standards:
   1) Basic Crane Operator
   2) Advanced Mobile Hydraulic Crane Operator
L) IPT's Crane and Rigging Handbook
M) W. G. (Bill) Newberry's Handbook for Riggers

3.0 SCOPE

This GI covers all onshore and offshore Saudi Aramco and contractor personnel operating cranes, heavy equipment or industrial vehicles as well as personnel rigging/slinging loads within Saudi Aramco facilities, on Saudi Aramco jobsites outside of operating facilities, off Saudi Aramco property under a Saudi Aramco contract, and in applicable Saudi Aramco domestic joint venture companies.

4.0 DEFINITIONS

4.1 CRANE OPERATOR – A person holding a heavy equipment operator certificate who is certified as being qualified to operate a specific model and capacity of crane as per Saudi Aramco Certification requirements; or a specific type or class as per the approved certification authority's requirements; may also receive additional certifications for crane attachments, tandem lifts, pick and carry operations, and personnel platforms (manbaskets).

4.2 HEAVY EQUIPMENT OPERATOR – A person holding a heavy equipment operator certificate who is certified as being qualified to operate a specific make and model of heavy equipment as per Saudi Aramco Certification requirements; or a specific type or class as per the approved certification authority's requirements.

4.3 HEAVY EQUIPMENT OPERATOR CERTIFICATE – Certification issued by Saudi Aramco, accepted local training provider, a Saudi Aramco approved international institution or a home country certification to crane operators and heavy equipment operators. See Supplement 2 for a list of approved third-party certifications for specific types of equipment.

4.4 HOME COUNTRY CERTIFICATION – Certification for non-Saudi Aramco marine personnel from a recognized international institution (Refer to GI 7.024 for additional information). This certification is valid only for offshore work by non-Saudi Aramco marine personnel.

4.5 INDUSTRIAL VEHICLES – vehicle used for industrial usage not intended to transfer passengers such as wireline trucks, boom trucks, trailers, tankers, etc.

4.6 RIGGER – A person certified by Saudi Aramco, accepted local training provider, a Saudi Aramco approved international institution, or a home country certification to prepare a load for lifting. Saudi Aramco rigger categories are Rigger-I, II, III (See Section 8.0 for more information).

4.7 SAFE WORK INSTRUCTION (SWI) – Provides step-by-step instructions for specific work being conducted at a drilling rig. This Drilling & Workover (D&WO) procedure is applicable to all D&WO rigs and service providers.

4.8 SAG – Saudi Arab Government

4.9 SLINGER – A person certified by Saudi Aramco, accepted local training provider or a Saudi Aramco approved international institution to prepare loads for lifting only at onshore, Drilling and Workover (D&WO) Rigs and D&WO Rigless operations (See Section 8.0 for more information).

4.10 ACCEPTED LOCAL TRAINING PROVIDER – Training institute that submitted their documentation to Saudi Aramco Local Workforce Development. Local Workforce Development Department along with Heavy Equipment Safety Committee will evaluate the requested training provider and accept them as location training provider if they meet Saudi Aramco requirement.

4.11 USER/PROPONENT - Saudi Aramco proponent department or other organization authorized to act on behalf of the Saudi Aramco proponent department.

5.0 HEAVY EQUIPMENT REQUIRING OPERATOR CERTIFICATION

5.1 Use Supplement 2, Table #1 to verify the operator certification requirements for a particular piece of equipment.

NOTE #1: Additional pieces of equipment not currently listed in Supplement 2, Table #1, may also require a specific certification. Contact the USER department for information regarding unlisted equipment.

5.2 A Home Country Certification for non-Saudi Aramco marine personnel from a recognized international institution shall be accepted for all heavy equipment used offshore (See GI 7.024 for additional information). Home country certificate is also accepted for operator who is presenting valid country certificate and pass Industrial Training Department (ITD) test. Department head shall review documentation of the specialized equipment operator before requesting the testing of ITD.

5.3 Heavy equipment operators for onshore fixed cranes (i.e. pedestal cranes) and tower cranes (fixed or on rails) shall be required to pass a written and performance test.

5.4 Accepted Local Training provider must be approved by Saudi Aramco Local Workforce Development Department with evaluation and acceptance of the Heavy Equipment Safety Committee.

6.0 GENERAL

6.1 Craftsmen (mechanics, electricians, inspectors, etc.) operating equipment for maintenance and testing reliability shall be designated in writing by the USER department manager to operate such equipment for repair, maintenance, and testing purposes only.

6.2 For this GI, equipment mounted on off-shore facilities/craft shall be considered 'fixed' equipment. Regulations for operator testing and certification shall be implemented as stated in API-Specification 2C, API-Recommended Practice 2D, and GI 7.024.

6.3 The USER may request re-certification of a crane operator or heavy equipment operator at any time.

7.0 HEAVY EQUIPMENT OPERATORS

7.1 Heavy equipment operators must be certified by Saudi Aramco, accepted local training provider, or by a Saudi Aramco approved international institution, as shown in Supplement 2, Table 1.

7.2 For heavy equipment operator certifications issued by Saudi Aramco, an online request should be submitted by an approved initiator by using the ITD online Certification and

Tracking system for each request. The heavy equipment operator applicant shall provide soft-copies of the following documents to the initiator to upload them:

a) Saudi Aramco ID copy (if required),
b) SAG Public Driver's License or SAG Heavy Equipment Operator License copy (if required) and a copy of the Government Driving License Printout showing the specific equipment Type.
c) SA 9663 - Saudi Aramco/Contractor's Medical Examination for Heavy Equipment Operators "Physician's Examination Form" – Completed, signed, and stamped if required per Supplement 2, Table #1. See Supplement 1for form SA 9663.

NOTE #2: For Saudi Aramco heavy equipment operators, form SA 9663 shall be completed by Johns Hopkins Aramco Healthcare (JHAH) physician in accordance with (JHAH) Medical Services Policy MSP-98, Attachment D. Form SA 3941, "Medical Examination Request/Notice", shall then be completed by the physician and the SA 9663 placed in the heavy equipment operator's medical records. The heavy equipment operator's supervisor shall submit the completed soft copy of SA 3941 and any other required documents, to their assigned initiator for online request submission.

For contractor heavy equipment operators, form SA 9663 shall be completed by a physician in accordance with Johns Hopkins Aramco Healthcare (JHAH) Medical Services Policy MSP-98, Attachment D. Upon completion, the contractor heavy equipment operator's supervisor shall submit the completed soft-copy of SA 9663 and any other required documents, to their proponent assigned initiator for the online request submission.

For heavy equipment operators who have medical fitness for duty provided through the third party agreement (TPA) insured hospital network in the Western and Central Regions, recording of 'fit for duty' will be communicated electronically to Saudi Aramco via the Medical Joint Venture Coordination Department (MJVCD) for record update purposes.

d) Colored clear recent photographs and scan copy of the applicant.

NOTE #3: Any Additional crane attachments need to be specified in the online request.

NOTE #4: Written certification tests (if required) for heavy equipment operators shall be in the English language only.

NOTE #5: For granting an access for initiator and verifier, user can check the website of Industrial Training Department:
http://tdonline.aramco.com.sa/ITDCTS/

7.3 For heavy equipment operator certifications issued by accepted local training provider or Saudi Aramco approved international institution, or for home country certification, the specific requirements of the issuing authority shall be followed. All associated costs shall borne by the applicant's company (e.g., contractor).

7.4 A heavy equipment operator shall have a valid heavy equipment operator certificate to operate the specific heavy equipment listed in Supplement 2 to which he is assigned.

7.5 Heavy equipment operator certificates issued by Saudi Aramco and accepted local training providers shall be valid for three (3) years. Heavy equipment operator certificates issued by a Saudi Aramco approved international institution or the home country certification shall be valid as per the issuing authority's specified period.

NOTE #6: Certifications for all crane attachments and additional crane manufacturers shall also expire with the expiration of the heavy equipment operator certificate.

7.6 Heavy equipment operator certifications issued by Saudi Aramco, Saudi Aramco approved local training provider will be issued for the specific make and, model of heavy equipment (and the specific model and capacity of crane, as appropriate) being tested. Specific requirements of the local training provider shall be followed and all associated costs shall be carried out by the applicant's company (e.g., contractor).

7.7 A heavy equipment operator shall possess a valid Heavy SAG license (if required per Supplement 2) and the government driving license printout showing the specific equipment type which he is assigned.

7.8 A heavy equipment operator shall immediately provide his heavy equipment operator certificate and SAG license (if license is required), to any authorized Saudi Aramco representative, upon request.

7.9 A heavy equipment operator, involved in a crane incident, shall immediately surrender his heavy equipment operator certificate to the USER representative during the investigation. Based on the outcome of the investigation, the operator certificate will be returned to the operator or in the case of certifications issued by Saudi Aramco, be forwarded to ITD until the operator is re-certified. For certifications issued by accepted local training provider, Saudi Aramco approved international institution or a home country certification, the USER shall retain the certification until the operator is recertified by the issuing authority (Refer to GI 7.026 for additional information.).

7.10 A heavy equipment operator, involved in a heavy equipment incident other than a crane incident, shall immediately surrender his heavy equipment operator certificate to the USER representative during the investigation. Based on the outcome of the investigation, the operator certificate will be returned to the operator or in the case of certifications issued by Saudi Aramco, be forwarded to ITD until the operator is re-certified. For certifications

issued by accepted Local Training provider or a Saudi Aramco approved international institution or a home country certification, the USER shall retain the certification until the operator is recertified by the issuing authority. The heavy equipment operator shall not be allowed to operate any other piece of heavy equipment for which he may also be certified until his operator certificate is returned to him (Refer to GI 6.001 and GI 6.003 for additional information).

8.0 RIGGERS AND SLINGERS

8.1 Riggers and slingers shall have a valid rigger or slinger certificate issued by Saudi Aramco, accepted local training provider, Saudi Aramco approved international institution or a home country certification for the load weight limit and type of lift to be rigged/slung without supervision, as shown in Supplement 2, Table 2. Only a Saudi Aramco certified Rigger-I may approve Critical Lift Plans. The rigger/slinger certification categories are as follows:

Slinger: Can rig loads up to 5 tons and all pre-rigged/slung loads that are included in a rigs pre-prepared Safe Work Instruction (SWI) except loads that require a Rigger-I.

Rigger-III: Can rig loads up to 10 tons except loads that require a Rigger-I.

Rigger-II: Can rig loads up to 40 tons, originate Critical Lift Plans, and rig/supervise crane suspended personnel platform (manbasket) operations.

Rigger-I: Can rig all loads and approve Critical Lift Plans for critical lifts.

NOTE #7: Refer to GI 7.028 for specific limitations for Riggers and Slingers depending on their certification level.

8.2 Rigger and Slinger certifications issued by Saudi Aramco and approved local training providers shall be valid for three (3) years. Rigger and Slinger certifications issued by a Saudi Aramco approved international institution or the home country certification shall be valid as per the issuing authority's specified period.

8.3 A Rigger-I must be certified by Saudi Aramco. Local training providers and international institutions are not allowed for Rigger-I certifications.

VISION	NORMAL	ABNORMAL
1- The vision shall not be less than 20/40 in each eye separately, with or without the use of eyeglasses or contact lenses.		
2- Color vision and visual fields should be normal.		
3- Diplopia is UNACCEPTABLE.		

HEARING	NORMAL	ABNORMAL
4- Hearing shall be adequate for normal speech communication with or without a hearing aid.		

POTENTIAL SUDDEN INCAPACITY	NORMAL	ABNORMAL
5- Any condition likley to cause sudden incapacity is UNACCEPTABLE. This includes, but is not limited to, a history of seizures after the 5 years, vestibular disorders, heart disease, and diabetes mellitus		

MISCELLANEOUS - The following must be considered:	NORMAL	ABNORMAL
6- Impairment of musculo-skeletal capacities.		
7- Coordination and progressive or disabling neurological disease.		
8- A history of psychiatric illness or emotional instability.		
9- Substance abuse.		
10- Medication and its side effects.		

FIT TO WORK?	YES	NO

REMARKS: _____

PHYSICIAN'S NAME (PLEASE PRINT) | PHYSICIANS SIGANTURE | DATE MM / DD / YYYY

FACILITY NAME (PLEASE PRINT) | FACILITY LOCATION (CITY) | FACILITY TELEPHONE #

Supplement 2 - Heavy Equipment Operator and Rigger/Slinger Certification Requirements

***TABLE #1 – Heavy Equipment Operator Certification Requirements**

EQUIPMENT TYPE	ALLOWABLE CERTIFICATION			HEAVY SAG LICENSE	SAG PUBLIC DRIVER'S LICENSE
	SAUDI ARAMCO	LOCAL PROVIDER	INTERNATIONAL INSTITUTION		
Backhoe	Yes	+(SPSP)		Yes	No
Boom Truck – Articulating	Yes			No	Yes
Boom Truck – Telescoping	Yes			No	Yes
Bulldozer	Yes	SPSP		Yes	No
Crane – Mobile	Yes			Yes	No
Crane – Pedestal	Yes			No	No
Crane – Tower	Yes			No	No
Forklift	Yes	SPSP		Yes	No
Gradall	Yes	SPSP		Yes	No
Grader	Yes	SPSP		Yes	No
Loader – Skid (Bobcat)	Yes	SPSP		Yes	No
Loader – Wheel /Pipeloader	Yes	SPSP		Yes	No
Manlift – Hydraulic	Yes		++(IPAF)	No	No
Manlift – Scissor	Yes		IPAF	No	No
Manlift -Telescoping	Yes		IPAF	No	No
Sideboom – Pipelayer	Yes	SPSP		Yes	No
Straddle Carrier	Yes	SPSP		No	No
Telehandler	Yes	SPSP		Yes	No
Tractor - Scraper	Yes	SPSP		Yes	No
Traxcavator	Yes	SPSP		Yes	No
Bucket Truck Driver	Yes		IPAF	No	Yes
Bucket Truck Technician (bucket operator)	Yes		IPAF	No	No

+Saudi Petroleum Services Polytechnic (SPSP)

++ International Association of Powered Access Federation (IPAF)

Note 1: Bucket Truck Driver shall hold both Saudi Aramco certificate and SAG Public Driver License. He has to be fully certified and tested in the function of operating the equipment entirely.
The bucket truck technician (bucket operator) does not require SAG license. He is not authorized to drive the vehicle. Saudi Aramco Bucket Truck certification is required for bucket truck operation only.

Note 2: If a specific box in the table is blank then there is not an approved local training provider or International institution approved to issue certifications for that specific piece of equipment.

* Note 3: USER spotted fake/forged certifications will be reported to Technical Security by USER for necessary legal action against the owner/proponent organization/local training providers or international institution.

Supplement 2 - Heavy Equipment Operator and Rigger/Slinger Certification Requirements

*TABLE #2 – Rigger and Slinger Certification Requirements

CERTIFICATION LEVEL	ALLOWABLE CERTIFICATION		
	SAUDI ARAMCO	LOCAL PROVIDER	INTERNATIONAL INSTITUTION
Slinger	Yes		
Rigger-III	Yes		
Rigger-II	Yes		
Rigger-I	Yes	Not Applicable	Not applicable

Note 1: If a specific box in the table is blank then there is not an approved local training provider or International institution approved to issue certifications for that specific rigger/slinger certification level.

Note 2: A Rigger-I may only be certified by Saudi Aramco. Local training providers and international Institutions are not allowed for Rigger-I certifications.

* Note 3: USER spotted fake/forged certifications will be reported to Technical Security by USER for necessary legal action against the owner/proponent organization/local training providers or international institution.

1.0 PURPOSE

This General Instruction (GI):

1.1 Specifies the methods, procedures, and responsibilities for performing standard lifts and critical lifts that involve onshore cranes operated by Saudi Aramco and contractor personnel.

1.2 Defines various types of crane lifts.

1.3 Identifies procedures required for performing various types of crane lifts.

* 1.4 Identifies the categories and work capacities of riggers and slingers.

1.5 Improves Saudi Aramco and contractor safety performance when involved in crane activities.

2.0 REFERENCES

It shall be the responsibility of Saudi Aramco USERs and contractors to make themselves familiar with the current version of the various publications referenced below.

3.0 SCOPE

This GI covers all onshore cranes operating within Saudi Aramco facilities, on Saudi Aramco jobsites outside of operating facilities, off Saudi Aramco property under a Saudi Aramco contract, and in applicable Saudi Aramco domestic joint venture companies. It also covers all Saudi Aramco and contractor personnel.

4.0 DEFINITIONS

4.1 AIR TUGGER – Air-operated winch used **only** for hoisting materials.

4.2 BLIND LIFT – Crane lift that does not allow direct visual contact between the crane operator and the signalman, usually the rigger. In blind lifts, additional signalmen, radios, or other communications may be used. However, if electronic communications is used (i.e., radios or telephones), a back-up communications system shall also be in place in cause of electronics failure.

4.3 CERTIFIED INSPECTOR – A person certified by the Saudi Aramco Inspection Department to perform inspections and certifications on elevating/lifting equipment (For additional information, refer to Inspection Department definition in GI 7.030).

* 4.4 CRANE – A crane consisting of a rotating superstructure with a power plant, operating machinery, and boom, mounted on a base that is either fixed, equipped with crawler treads for travel or mounted on a crane carrier equipped with axles and rubber-tired wheels for travel.

4.5 CRANE LIFT – CRITICAL – Any crane lift that requires a Critical Lift Plan (See Section 5.0 for types of critical lifts).

4.6 CRANE LIFT – STANDARD (ORDINARY) – A standard crane lift is any lift not classified as a critical lift. Crane configuration shall be with main boom only.

* 4.7 CRANE OPERATOR – A person holding a Heavy Equipment Operator Certificate who is certified as being qualified to operate a specific model and capacity of crane as per Saudi Aramco Certification requirements; or a specific type or class as per the approved certification authority's requirements; may also receive additional certifications for crane attachments, tandem lifts, pick and carry operations, and personnel platforms (manbaskets).

4.8 CRITICAL LIFT PLAN – A Critical Lift Plan is a document (SA 9644) [See Attachment #1] that identifies a specific load and the operating restrictions. Pertinent information includes all weights on hook blocks and attachments.

** 4.9 HEAVY EQUIPMENT OPERATOR CERTIFICATE – Certification issued to operate cranes and other heavy equipment per the requirements of GI 7.025.

4.9 OPERATIONAL AID – A component that provides information to facilitate operation of a crane, or that takes control of particular crane functions without action by the crane operator, when a limiting condition is sensed.

4.10 ORIGINATOR – The person who fills out the Critical Lift Plan form, prior to review and approval by a Rigger-I. Only a Rigger-I or Rigger-II can be the originator.

4.11 RATED CAPACITY [LOAD] LIMITER (RCL) – A device that automatically monitors radius, load weight, and load rating and prevents movement of the crane, which would result in an overload condition.

4.12 RIGGER – A person certified by Saudi Aramco to prepare a load for lifting. Saudi Aramco rigger categories are Rigger-I, II, III (See Section 8.0 for more information).

** 4.13 SAFE WORK INSTRUCTION (SWI) – Provides step-by-step instructions for specific work being conducted at a drilling rig. This Drilling & Workover (D&WO) procedure is applicable to all D&WO rigs and service providers.

** 4.14 SLINGER – A person certified by Saudi Aramco to prepare loads for lifting only at onshore, Drilling and Workover (D&WO) Rigs and D&WO Rigless operations (See Section 8.0 for more information).

4.15 TAILING – The placement of a load resting on the ground from the horizontal position to the vertical position or the vertical position to the horizontal position.

4.16 TANDEM LIFT (MULTI-CRANE LIFT) – Any crane lift involving two (2) or more cranes lifting or tailing the same load at the same time.

4.17 TURNING – The placement of a load suspended in the air from the horizontal position to the vertical position or the vertical position to the horizontal position.

4.18 USER – The Saudi Aramco proponent department or other organization authorized to act on behalf of the Saudi Aramco proponent department.

4.19 USER SUPERVISOR – The person, representing the USER, with the responsibility for the crane operation.

5.0 CRITICAL CRANE LIFTS

NOTE #1: Approved critical lift plans shall be on site prior to the lift. Local work permit requirements shall also be observed.

5.1 High risk work environment crane lifts include, but are not limited to, the following examples and restrictions/requirements:

5.1.1 Any part of a crane whose boom or boom attachment is working within 10 meters (33 feet) of any hydrocarbon and/or pressurized piping areas. This includes cranes having to suspend a load over tanks, pressure vessels, piping, and/or equipment containing hydrocarbons, steam, or other pressurized liquids.

5.1.2 Any part of a crane whose boom or boom attachment is working within 10 meters (33 feet) of any populated/traffic areas. This includes cranes having to suspend a load over pedestrians, vehicle traffic, occupied construction equipment, and/or occupied buildings.

5.1.3 Any crane lift that requires an attachment(s) to the main boom.

5.1.4 Any load forty (40) tons or greater.

5.1.5 Any load that exceeds eighty-five percent (85%) of the crane's rated load capacity or manufacturer's specifications for that specific lift.

5.1.6 Any crane lift with explosion/fire/high heat hazards.

* 5.1.7 Any crane working near energized power-lines.

When working less than 1-1/2 fully extended boom lengths from energized power-lines, a designated signalman shall ensure the following minimum distances are maintained:

Line Voltage	**Absolute Limit of Approach**
Up to 50,000 volts	3.1 meters/10 feet
50,000 to 200,000 volts	4.6 meters/15 feet
200,000 to 350,000 volts	6.1 meters/20 feet
350,000 to 500,000 volts	7.6 meters/25 feet

Local work permit procedures shall be followed when work is performed within the above limits (Refer to GIs 2.100 and 2.702). Power Distribution Department concurrence shall be required on all Critical Lift Plan forms for cranes whose booms, when calculated at full extension and with attachments, could be operating within 10 meters (33 feet) or less of energized power-lines.

5.1.8 Any part of a crane whose boom or boom attachment is working within 10 meters (33 feet) of a railway line. The USER shall submit a copy of the railway train schedule as an additional required attachment to the completed Critical Lift Plan form.

5.1.9 Have a Rigger-I in charge of actual lift coordination.

5.2 Special critical crane lifts, hazardous by their nature and requiring special training, rigging, and/or boom attachments, include, but are not limited to, the following examples and restrictions/requirements:

5.2.1 Tailing, tandem (multiple), or turning lifts (See Paragraphs 4.11, 4.12, and 4.13 for additional information)

A. De-rate all cranes involved in the lift by twenty-five percent (25%) of the load chart.

B. Utilize cranes of same size, manufacturer, and model, if possible, (except tailing lift) for tandem (multiple), and turning lifts.

C. Have a separate, approved Critical Lift Plan on site prior to the lift, each time one of these types of lifts is performed.

D. Have a Rigger-I in charge of actual lift coordination.

NOTE #2: For Drilling and Workover operations involving bottom hole assemblies (BHAs), the rig shall be allowed to use its draw works and one (1) tailing crane to move the BHA onto and off of the rig floor. The following minimum requirements shall be followed for BHA tailing operations:

(a) Only Saudi Aramco certified crane operators shall be used. The Saudi Aramco certified crane operator shall also be Saudi Aramco certified for tandem lifts.

(b) A Saudi Aramco Critical Lift Plan (form SA 9644 for land and form SA 9672 for offshore and marine) shall be completed and signed by a Saudi Aramco certified Rigger-I.

(c) A safety meeting shall be held prior to beginning BHA tailing operations to discuss the activity and the individual personnel job duties and responsibilities.

(d) A signalman, if required, shall wear a fluorescent vest and fluorescent gloves to provide better visibility to the crane operator.

5.2.2 Crane suspended personnel platforms (manbaskets)

A. **Only** allow work from, or transport by, a crane suspended personnel platform (manbasket) when conventional means of performing the work or reaching the worksite (such as personnel hoist, ladder, stairway, aerial lift, elevating work platform, or scaffold) would be more hazardous, or is not practical, because of structural design or worksite conditions (Refer to GI 7.027 for more details).

B. Have an approved Critical Lift Plan on site prior to the lift.

C. Have a Crane Suspended Personnel Platform (Manbasket) Permit (SA 9648) properly completed, signed, and onsite prior to the lift (Refer to GI 7.027, Attachment #1).

D. De-rate the crane by fifty percent (50%) of the load chart.

E. Not perform crane suspended personnel platform (manbasket) lifts in wind speeds exceeding 25 km/h (15 mph – 13 knots – 7 meters/second).

F. Have prior written approval from the Facility Manager for crane suspended personnel platform (manbasket) operations that are performed at night (See Paragraph 5.2.3 for additional nighttime crane lift requirements).

5.2.3 Nighttime crane lifts

A. Have an approved Critical Lift Plan on site prior to each crane lift performed at night.

NOTE #3: Night is defined as the hours between sunset and sunrise.

B. Have specific prior written approval from the Facility Manager for each crane lift performed at night, except during a T&I or Shut Down.

C. Have proper lighting, sufficient to perform the lift safely.

5.2.4 On rubber or pick and carry lifts

A. Have the on rubber and pick and carry lift duties stated on the manufacturer's crane load chart for this duty to be an acceptable option.

B. Have the crane operator confirm that the proper recommended tires are fitted (sand tires are not acceptable).

C. Have the crane operator confirm the proper recommended tire pressure and that the tires have no obvious defects.

D. Have the travel surface level, free of potholes, and with acceptable ground conditions. Travel speed shall not exceed 4 km/h (2.5 mph).

E. Have the load secured to prevent any swing into the crane structure. Snubbing or tag lines shall be used.

F. Have travel procedures, as specified by the manufacturer, followed (e.g., the turntable swing-lock pin should be engaged during travel).

NOTE #4: Traveling with a load is an inherently hazardous procedure that requires extra precautions to ensure operations are conducted safely.

5.2.5 Blind lifts

A. Have properly tested communications equipment, if hand signals are not used.

B. Have an established set of universal hand signals as a back-up communications system in case of failure of original communications equipment.

C. Ensure that all signalmen and the crane operator are familiar with the hand signals.

D. Have clear visibility between all signalmen and between final signalman and crane operator if only hand signals are used.

6.0 CRITICAL LIFT PLANS

6.1 **All critical lifts require an approved Critical Lift Plan (See Attachment #1).**

* 6.2 Loads noted in approved Critical Lift Plans shall be rigged by a rigger certified for that load category (Rigger-I, II, or III). [See Section 8.0 for more information on rigger duties]. Slingers are not allowed to rig loads requiring a Critical Lift Plan.

6.3 The Critical Lift Plan form shall be properly completed, signed, and approved prior to the lift. It shall first be signed by the originator; then signed by the crane operator, rigger, and USER supervisor. It shall then be reviewed and approved by a Saudi Aramco certified Rigger-I.

The Critical Lift Plan form also requires an additional signature concurrence from the Power Distribution Department for any work near energized power-lines (See Paragraph 5.1.7).

NOTE #5: Do not mix metric and non-metric measurement systems.

6.4 The Rigger-I shall physically examine the jobsite and the equipment to be used prior to giving signature approval to the Critical Lift Plan. He shall be physically present to supervise all lifts that require a Rigger-I.

NOTE #6: For critical lifts that are repeated, a Rigger-II or Rigger-III may be allowed to execute identical lifts at the same location, under the same Critical Lift Plan, without Rigger-I supervision, if the Rigger-I has:

(a) Reviewed the procedure

(b) Conducted the initial lift

(c) Supervised the Rigger-II/Rigger-III during two (2) subsequent lifts to verify that it is within the Rigger-II or Rigger-III's capabilities

(d) Given written permission on the crane operator's copy of the Critical Lift Plan (including Rigger-I's name, Saudi Aramco Rigger-I certification number, and date) for the Rigger-II/Rigger-III to perform those routine critical lifts.

Allowing a Rigger-II or Rigger-III to execute lifts under a Critical Lift Plan does not relieve the Rigger-I of responsibilities for that Critical Lift Plan or the lifts covered under it.

Only a Rigger-I shall execute tandem lifts, lifts over forty (40) tons, lifts exceeding eighty-five percent (85%) of the crane's rated load capacity, working beside energized power-lines (See Paragraph 5.1.7), and/or on rubber pick and carry operations (See Paragraph 5.2.4).

6.5 Blanket or multiple use Critical Lift Plans are intended to expedite operations where crane lifts are identical, yet performed on different dates, or where lifts will be performed continuously until the work is completed. The following Notes explain when blanket and multiple use Critical Lift Plans may be used:

NOTE #7: Blanket Critical Lift Plans can be used for critical lifts using the same model and capacity of crane, working from the same location, to lift the same piece of equipment during different time periods, without having to fill out and sign a new Critical Lift Plan form. The same Critical Lift Plan may be used for critical crane lifts, provided:

a) The load configuration is **IDENTICAL**,

b) The same lifting equipment and accessories (crane, load weight, location, obstructions, work environment, etc.) are used,

c) The same rigging configuration is used, and

d) Field verification has been performed by the USER Supervisor. The USER Supervisor shall sign and date the top of the Critical Lift Plan prior to the crane lift.

NOTE #8: Multiple use Critical Lifts Plans are crane lifts using the same model and capacity of crane and location to lift an assortment of different pieces of equipment. The same Critical Lift Plan may be used for multiple use critical crane lifts, provided:

a) The most extreme radius, boom length, and load weight of the multiple lifts is used in the calculations,

b) The same crane is used (identified in the Critical Lift Plan by the Equipment ID #),

c) The certified crane operator and certified rigger, who signed the multiple use Critical Lift Plan are used, and

d) A multiple use Critical Lift Plan shall not be valid thirty (30) days from the date of signature by a Rigger-I. After thirty (30) days, a new multiple use Critical Lift Plan shall be obtained.

6.6 Critical lifts routinely performed in high risk operating environments, such as plants, refineries, and pressurized piping areas, should have related job standards or operation procedures modified to include approved 'blanket' Critical Lift Plans that specify required rigging for repetitive jobs.

6.7 Saudi Aramco USER departments who do not have the in-house capability to safely perform required Critical Lifts shall contact T&ESD.

NOTE #9: Only technical clarification on issues related to crane lifts shall be provided by T&ESD.

6.8 The USER shall have the authority to require an approved Critical Lift Plan for crane lifts that do not meet the mandatory requirements of Section 5.0.

7.0 GENERAL

7.1 All crane lifts (standard and critical) require properly licensed and certified operators (Refer to GI 7.025). All electrical or engine powered cranes require a valid safety sticker issued by an Inspection Department certified inspector (See Paragraph 4.1; also refer to GI 7.030). Local work permit procedures in plants and other critical areas apply as required by GI 2.100. Crane operators shall perform all lifts as per the Saudi Aramco job requirements.

** 7.2 The USER shall verify that all crane operators have a valid Heavy Equipment Operator Certificate per GI 7.025, to operate the specific heavy equipment to which they are assigned (Refer to GI 7.025).

** 7.3 The USER shall verify that all riggers and slingers have a valid rigger (or slinger) certification per GI 7.025, for the load weight limit and type of lift to be performed without supervision (Refer to GI 7.025).

7.4 The crane operator shall have the final decision on any crane lift that affects the safety of his crane.

* 7.5 Certified riggers or slingers shall be used to rig **all** loads, regardless of weight to be lifted, configuration, or location. This includes such operations as standard and critical lifts, loading or off-loading trucks (including boom trucks), etc. The USER shall provide, in writing, the weight of any load prior to the lift.

* 7.6 Personnel with certifications as both a crane operator and as a certified rigger (or slinger) shall not be allowed to perform both functions at the same time, nor shall such a person be permitted to supervise a lift while operating a crane.

7.7 All crane travel on highways and outside plant areas shall be with the normally mounted boom sections only. All hydraulic cranes shall have boom sections fully retracted, jibs removed or stowed, and hook blocks secured. A positive locking device shall be engaged to prevent the boom from swinging during travel. For all cranes fitted with retractable suspension units, the suspension shall be level before traveling.

7.8 All hydraulic cranes traveling inside plant facilities with more than the normally mounted boom sections shall do so in strict accordance with manufacturer's specifications and procedures. Hydraulic cranes, traveling with more than the normally mounted boom sections, shall not travel more than 1 km (0.6 miles). All crane turns shall be assisted by a flagman to ensure that the boom tip is clear of any obstruction.

7.9 All lattice boom cranes traveling inside plant facilities, without boom disassembly and on the same job, shall do so in strict accordance with manufacturer's specifications and procedures. Repositioning of lattice boom cranes, without boom disassembly and on the same job, shall be permitted, providing the movement is less than 1 km (0.6 miles) and escorted front and back. All crane turns shall be assisted by a flagman to ensure that the boom tip is clear of any obstruction.

7.10 If an operational aid stops working properly during the lift, the device/crane manufacturer's recommended procedures shall be followed. If no procedures are available, a Rigger-I shall establish procedures to complete the lift.

7.11 The use of operational aids **shall not** replace the requirements for verifying load weights, radii, and lift parameters.

7.12 All cranes working around populated or traffic areas shall have barricades placed to provide clearance for tail swing. Only authorized personnel shall be permitted inside the barricaded area.

7.13 Cranes working near trenches and excavations shall be a minimum distance equal to the depth of the trench or excavation for Class A soils and twice the distance for Class B and C soils (Refer to the Saudi Aramco Safety Handbook or the Construction Safety Manual for information on soil classifications). If a safe distance cannot be kept, the trench or excavation shall be filled and compacted prior to the crane being moved on site. The USER shall be responsible for determining the soil classes and conducting all soil compaction and tests per Saudi Aramco compaction standards.

7.14 Standard and critical crane lifts shall not be performed in wind speeds exceeding 32 km/h (20 mph – 17.4 knots – 9 meters/second), unless otherwise specified by the crane manufacturer (See Paragraph 5.2.2.E for wind speed limitations for crane suspended personnel platform [manbasket] lifts).

7.15 It is the responsibility of the crane operator to:

7.15.1 Install and reposition swing-away jibs and extensions on the hydraulic cranes;

7.15.2 Reeve the hook block with the proper number of wire rope falls to accommodate the load to be lifted within the safe working limits of the crane; and

7.15.3 Insert and remove boom sections for truck and crawler mounted lattice boom cranes.

NOTE #10: Any assembling, disassembling, or change of lattice boom configuration requires re- inspection by a certified inspector before the crane can be re-mobilized to perform any crane lifts.

7.16 Suitable knot-free and defect-free tag lines shall be used to control suspended loads, except when their use may create a greater hazard.

7.17 The pinned extension of the hydraulic boom crane shall be extended prior to using a jib to obtain the maximum lifting capacity and radius.

7.18 All cranes shall have their safe working load rating clearly visible in English. All information and warning decals shall be in English when possible.

7.19 Each certified crane operator shall perform a daily pre-operational safety inspection, prior to operating his assigned crane, using Saudi Aramco form SA 9466, Crane Operator Daily Inspection Checklist (See Attachment #2 or the Saudi Aramco website). Any hazardous safety deficiency shall require corrective maintenance prior to the crane being used. Records of daily pre-operational inspections shall be maintained by the USER for a minimum of three (3) months and made available for assessment.

Each contractor crane operator shall perform a daily pre-operational safety inspection, prior to operating his assigned crane, using Saudi Aramco form SA 9466 (which can be obtained from the USER, as Attachment #2 of this GI, and/or is located on the Saudi Aramco website) or the crane manufacturer's daily inspection checklist. Any hazardous safety deficiency shall require corrective maintenance prior to the crane being used. Records of daily pre-operational inspections shall be maintained by the USER for a minimum of three (3) months and made available for assessment.

NOTE #11: The USER shall ensure that all cranes have a documented program of preventive maintenance that is properly implemented and maintained. Crane maintenance shall be performed in accordance with manufacturer's specifications.

7.20 All cranes shall be fitted with the following safety items: fire extinguisher, back-up alarm, spark arrestor (for cranes that are without an emission controlled engine system), and, if applicable, seat belts for highway driving.

7.21 Cranes extending more than 60 meters (197 feet) above ground level shall have a permanently mounted aircraft warning light operating 24 hours a day. This light shall be a medium intensity, flashing white obstruction light during daytime hours with automatically selected reduced intensities for twilight and nighttime hours. The warning light shall be placed at the highest point of the crane.

7.22 **All** cranes working for Saudi Aramco (Company-owned and contractor cranes), with the exception of articulating boom cranes (boom trucks), shall be equipped with properly working Rated Capacity [load] Limiters (RCLs) and anti-two-block devices or two-block damage prevention features for all points of two-blocking (i.e., jibs, extensions, etc.).

7.23 Rigging hardware shall be inspected per GI 7.029 and crane suspended personnel platforms (manbaskets) per GI 7.027.Inspection records (logbooks) shall be current for all rigging hardware as per the above GIs.

7.24 All outdoor cranes, crane suspended personnel platforms (manbaskets), and elevating equipment (telescopic/hydraulic/scissor) shall suspend operations during electrical storms and personnel shall seek shelter until the danger has passed.

7.25 Removable float-pads on cranes shall be removed and stowed prior to traveling the crane.

7.26 The USER shall advise the crane operator and the rigger of all underground utilities in the area of the crane prior to any lift.

7.27 All cranes shall be leveled in accordance with manufacturer's specifications and shall be located on a properly compacted foundation prior to performing any lift. The USER shall be responsible for determining the soil classes and conducting all soil compaction and tests per Saudi Aramco compaction standards.

7.28 Welding or modification on load hooks and other lifting equipment is strictly forbidden.

7.29 When outriggers are used, they shall be extended or deployed according to the crane load rating chart specifications. The crane's wheels shall be raised completely off the ground.

* 7.30 Outrigger mats shall be used under all crane outrigger float pads during crane lifts (if the crane has outriggers). Outrigger mats shall be designed to support the total weight of the crane and load to be lifted. Any blocking (cribbing) used under outrigger mats shall be stable to avoid overturning or sinking into the soil. Outrigger mats shall not be permanently attached to the crane outriggers.

7.31 Cranes shall be secured during high winds (See Paragraph 7.12) or after working hours by snubbing to structures, laying down the lattice booms, withdrawing the hydraulic boom extensions, and/or following manufacturer's specifications. Tower cranes, when unattended, shall have slew brakes released to allow weather vaning.

7.32 The crane operator shall not leave the controls at any time while a load is attached.

7.33 The hoisting, slewing, crossing, luffing, or traveling motions of a crane shall not be used to drag any load along the ground with the hoist rope out of the vertical position. Crane operators shall only pick up loads when the boom head and hook are in plumb (centered directly over the load).

7.34 The main boom line and the auxiliary boom line (whip line) shall not be used at the same time on the same load, unless otherwise specified by the crane manufacturer.

7.35 All cranes shall have load charts available in the cabs stating lift capacity based on boom length, attachments, boom angle, outrigger configuration, radius, and lift quadrant. Load charts, if permanently attached to the crane cab wall, shall be positioned for easy visibility to the operator while he is seated at his control station. Environmentally protected load chart manuals may be approved as an alternate to plaques (All plaques and manuals shall be in the English language).

7.36 Windows shall be provided in the front and on both sides of the cab or operator's compartment with clear visibility forward and to either side. Visibility forward shall include a vertical range adequate to cover the boom point at all times.

7.37 Personnel shall not ride the hook, auxiliary headache ball, or the load during the lift.

7.38 Cranes working in close proximity to operating high heat sources (flare stacks, etc.), that may affect the boom, sheaves, boom line, etc., shall take special safety precautions to protect such equipment from damage.

7.39 The USER shall verify, in writing, the structural load bearing capacity of roofs, floors (other than the ground floor), or other elevated structure surfaces prior to placement of the load.

7.40 A designated signalman shall be used at all times during the lifting, moving, and setting of a load. Only one designated signalman shall give signals to the crane operator.

The type of communication to be used shall be determined prior to the lift by the USER supervisor. He shall also provide a full explanation of hand signals to be used, whether as primary or back-up communication. The designated signalman and crane operator shall verify that they are familiar with the same set of hand signals. The signalman shall wear a bright fluorescent vest for easy identification. Radio communication is preferred, especially in cases where signal relays are required.

If, at any time, the crane operator does not have direct eye contact with the designated signalman, he shall immediately stop the crane lift operation until such time that he can again see the signalman.

7.41 Use of any mobile phone function is strictly prohibited in Saudi Aramco restricted areas, during lifting operations, and while driving a crane.

* 8.0 RIGGERS AND SLINGERS

* 8.1 All riggers and slingers shall have a valid rigger or slinger certificate issued by Saudi Aramco, a SA approved international institution or a home country certification for the load weight limit and type of lift to be rigged/slung without supervision per GI 7.025. Only a Saudi Aramco certified Rigger-I may approve Critical Lift Plans. The rigger/slinger certification categories are as follows:

** Slinger Can rig loads up to 5.0 tons and all pre-rigged/slung loads that are included in a rigs pre-prepared Safe Work Instruction (SWI) (except loads covered in Section 5.0 that require a Rigger-I).

Rigger-III Can rig loads up to 10 tons (except loads covered in Section 5.0 that require a Rigger-I.

Rigger-II Can rig loads up to 40 tons, originate Critical Lift Plans, and rig/supervise crane suspended personnel platform (manbasket) operations.

Rigger-I Can rig all loads and approve Critical Lift Plans for critical lifts.

* A Rigger-III and/or a Rigger-II may only rig loads exceeding their certificate level if supervised by the Rigger of the higher certificate level. Slingers shall not rig loads exceeding their certificate level.

* Loads noted in approved Critical Lift Plans shall be rigged by a rigger certified for that load category (Rigger-I, -II, -III) However, all loads forty (40) Tons or greater require a Rigger-I to supervise the lift. Slingers shall not rig loads requiring a Critical Lift Plan.

8.2 The Rigger-I shall physically examine the job site and the equipment to be used prior to the lift. He shall be physically present to supervise all lifts that require a Rigger-I.

* 8.3 Certified riggers and slingers shall be used to rig **all** loads, regardless of weight to be lifted, configuration, or location. This includes such operations as standard and critical lifts, loading or off-loading trucks (including boom trucks), etc. However, certified riggers are not required for pipe laying operations when using side boom tractors.

9.0 CRANE OPERATOR CERTIFICATION

Refer to GI 7.025 for crane operator certification requirements. Some critical lifts (See Section 5.0) require specific testing and certification, with exception of the swing-away jibs.

10.0 TRIAL LIFTS

All crane lifts shall have a trial lift prior to the actual lift. The trial lift shall consist of the load being hoisted just clear of the support (float/suspend the load) to test the mechanical condition of the crane and to ensure that rigging hardware is properly secured.

11.0 SIDE BOOM TRACTORS

11.1 Side boom tractors should be used for its primary designed purpose.

11.2 Side boom tractors, when used for lifting purposes other than pipe laying, shall have a safety latch fitted on the hook or the hook/sling wired to prevent a slack sling becoming loose.

11.3 Side boom tractors shall be exempt from Section 5.0, in regard to critical lift requirements of this GI, when used for pipe laying only.

11.4 Welding or modifying the boom structure or superstructure shall be performed in strict accordance with ASME B30.14.

11.5 Welding or modifying the load hooks or other lifting equipment is strictly forbidden.

11.6 Prior to traveling, the side boom tractor (track-type) operator shall:

11.6.1 Visually check the immediate surrounding area to ensure it is free of obstructions and personnel,

11.6.2 Check the position of the load, boom location, ground support, travel route, and speed of movement to ensure that they do not present a safety hazard, and

11.6.3 Sound a warning signal, if supplied by the manufacturer, prior to movement and intermittently during travel.

12.0 JACKING OPERATIONS

Jacking operations shall follow ASME B30.1 "Jacks" and manufacturer's specifications for specific operational requirements. Procedures shall be reviewed by the USER prior to the start of the work.

SAUDI ARABIAN OIL COMPANY (Saudi Aramco) GENERAL INSTRUCTION MANUAL	G.I.NUMBER Approved 2.100	
ISSUING ORG. LOSS PREVENTION DEPARTMENT	ISSUE DATE 09/01/06	REPLACES 05/16/98
SUBJECT: **WORK PERMIT SYSTEM**	APPROVAL ASJ	PAGE NUMBER 1 of 7

CONTENT Requirements for use of work permit forms Saudi Aramco 924-1, 924-2, 924-3 and 924-4. The text includes:

1. Intent
2. Definitions
3. Function of Work Permit System
4. Issuance and Approval of Work Permit Forms 924-1, 924-2, 924-3, 924-4
5. Right to Stop Work and Cancel Permits
6. Closing Work Permits
7. Filing Work Permits
8. Certification of Issuers and Receivers of Permits
9. Periodic Reviews

1. INTENT

1.1 This General Instruction (GI) establishes minimum guidelines and responsibilities for the issuing/receiving of work permits, and for certifying those responsible for implementing the system. Individual departments may develop additional practices or procedures to cover their own specific requirements. When issued, permits serve as official records of conditions and requirements agreed upon by the issuer and receiver. They list minimum safety precautions to be taken and hazards which must be controlled. See supplement 2.100-1 - Forms 924-1, 924-2, 924-3 and 924-4.

2. DEFINITIONS

★ 2.1 Restricted areas - Those areas or activities which have been designated by department managers as requiring the work permit procedure. These include all areas where hydrocarbons, flammable liquids or gases, or toxic agents are handled, stored, piped or processed in bulk quantities. The following areas are examples of "restricted areas": petroleum processing plants, pump stations, bulk plants, tank farms, air fueling operations, loading piers, hydrocarbon containing pipelines and pipeline corridors, oil and gas wells, gas plants, water and gas injection wells and pipelines, water or sewage treatment plants, marine vessels, gasoline service stations, areas where explosives or radioactive materials are used or stored and areas within 15 m (50 ft) of power lines.

2.2 Work permit issuers - Supervisors who are certified by their division or department heads to issue work permits for restricted areas under their supervision (also referred to as issuers).

★ 2.3 Designated representatives - Employees designated by the issuer, who must be experienced, competent and familiar with the requirements of GI 2.100 and the work permit system and be able to perform the duties associated with issuing work permits. Designated representatives cannot sign work permits.

2.4 Work permit receivers - Craft supervisors, craftsmen, or other company employees who have been certified by their division or department heads, and contractor employees

sponsored by organization heads to sign and receive work permits (also referred to as receivers).

3. FUNCTION OF WORK PERMIT SYSTEM

3.1 The work permit system authorizes specific construction, maintenance, inspection, or repair to be conducted in the company's restricted areas. The system is intended to be applied to those jobs which represent a potential hazard to company operations, facilities, personnel, or equipment. Low risk jobs, as determined by the operating organization, may be exempted from the work permit system. Low risk jobs are those which management determines can be conducted safely without work permits and may include carpentry, inspections in non-hazardous areas, cleaning or lubricating of non-hydrocarbon equipment, and certain classes of non-flash photography. In such cases, the operating organization must maintain adequate control and account for personnel in the restricted area.

3.2 Work permit forms 924-1, 924-2, 924-3 and 924-4 must be issued, as appropriate for specific work on a specific site. These work permit forms are for all types of work in restricted areas. Work permits must be issued for any of the work or combination of the work identified below:

★ 3.2.1 Release of hazardous liquids or gases is any work that has the potential for actual or possible release of flammable, combustible, toxic and injurious materials, in levels that can pose a hazard to personnel, property or the environment. Use Saudi Aramco form 924-1 (YELLOW). A release permit is not intended to authorize a release but to ensure that if there is a potential for release, all appropriate precautions are taken.

Example: Opening a hydrocarbon or steam line to drain a vessel (Note: in most cases a cold work permit is also required).

★ 3.2.2 Hot work is any work that develops sparks, flames, or heat sufficient to cause ignition. This work permit will apply to the use of spark or flame producing tools and equipment, including the use of internal combustion engines in restricted areas. Use Saudi Aramco form 924-2 (RED - white form with red text and border).

Examples: Work on or in close proximity to live electrical apparatus in a classified area, when a vehicle enters a plant, welding, torch use, grinding, blasting, etc.

★ 3.2.3 Cold work is work that will not produce sufficient energy to ignite flammable atmospheres/materials. Use Saudi Aramco form 924-3 (BLUE).

Examples: Work with hand tools, sand removal, asbestos removal or repair, scaffold erection, brush painting, etc.

3.2.4 Confined space entry is the entry of personnel into any space or structure (i.e., tank,

vessel, vault, excavations when 1.2 m (4 ft) or deeper, etc.) not normally intended for human occupancy, where entry, movement within, or exit is restricted. Use Saudi Aramco form 924-4 (GREEN).

Examples: Tank cleaning, tank inspection, or work in sewers or trenches 1.2 m (4 ft) or deeper.

(Note: In most cases a hot or cold work permit is also required.)

3.3. Work may also be subject to requirements or regulations as stated in the General Instruction Manual, Refinery Instruction Manual, Operations Instruction Manual, Terminal Instruction Manual, Gas Plant Instructions, or other facility operations manuals.

4. ISSUANCE AND APPROVAL OF WORK PERMIT FORMS 924-1, 924-2, 924-3 AND 924-4

4.1 The issuer and receiver are jointly responsible for the safety of personnel and equipment in the area. The issuer is responsible for specifying precautions so that the work can be done without injury or loss. The receiver is responsible for performing the work in accordance with the conditions and requirements agreed upon with the issuer and specified in the work permit.

4.2 Before issuing the work permit all necessary actions to approve the proposed work and/or possible configuration changes must be completed. The issuer must verify that the receiver's certificate is valid and approved for the type of work to be done: (i.e., hot work, confined space entry, cold work, release of hazardous liquids or gases, or a combination of these).

★★ 4.3 The receiver requests the work permits from the operations supervisor of the facility (i.e., the issuer); and can complete the initiation part of the work permit form. The initiation part of the work permit includes the information section from the top of the form, to the section titled “Equipment used at the site”. The receiver must participate in any joint site inspection that is conducted.

★ 4.4 The issuer will issue the work permit after he (or his designated representative) has conducted a joint site inspection with the receiver as appropriate, performed the necessary gas tests, listed applicable precautions and restrictions, and reviewed all aspects of the job with the receiver (see paragraph 4.2 for guidance). The issuer's and receiver's signatures plus any other approvals and signatures must be on the completed form. These additional approvals or signatures are required for extended permits (see paragraph 4.6) or for some specific jobs, the superintendent must countersign the permits (refer to permit forms for details).

4.4.1 The issuer must obtain the approval and counter signature of any other operations supervisors (i.e., issuers) whose operations will be affected, before issuing a permit.

★ 4.4.2 For some jobs, the issuer (or his designated representative) may determine that a joint site inspection is not required for jobs with extremely low risk. Examples include: cold work in a safe area, carpentry, lubricating, cleaning, brush painting, non-flash photography, instrument checking in a control room, and a vehicle entering a non-hazardous area.

When there is any doubt about whether a hazard exists, a joint site inspection must be conducted.

When the issuer determines a joint site inspection is not required, he must specify the reasons in the appropriate space on the permit.

★ 4.4.3 During an emergency the issuer can authorize work without work permits. The work activity, however, cannot violate any Saudi Aramco minimum safety standards. The issuer should issue work permits as soon as possible.

4.5 Renewal of the work permit is permissible for two consecutive operating shifts. The renewal requires the signatures of both the issuer and the receiver coming on shift. Normally, the period covered by one work permit shall not exceed 16 consecutive hours. Refer to paragraph 4.6 below for exceptions to this rule.

4.5.1 Signing the work permit indicates complete agreement with the conditions stated on the form and transfers the responsibility to those coming on shift.

4.5.2 The work permit is for specific work on a specific site. It cannot be transferred except to the following shift. Transfer from one craft to a different craft is not permitted.

★ 4.6 Extended work permits may be issued for periods over 16 hours but not in excess of 30 days. This lengthy extension applies to extended construction or maintenance work where the job requirements remain essentially unchanged. The permit must be approved by the division head or above of the issuing department and the following conditions must be satisfied:

4.6.1 It must be highly unlikely that conditions will develop which would create an additional hazard to personnel or operating facilities.

4.6.2 Precautions must be taken prior to starting the job, to ensure safe conditions throughout the job.

4.6.3 Both the operations division head and the maintenance/construction division head must be in agreement as to job conditions and risks involved and both must sign the work permit.

★ 4.7 The receiver of a work permit must keep a copy in his possession or in view at the job site

for the duration of the job so that it is available for inspection and cancellation if necessary. The receiver is expected to remain at the job site to adequately supervise the work, however, if he must leave the job site for any reason, for example to obtain additional tools or equipment, etc., he must, if the issuer concurs, relinquish supervisory control to a senior crew member who is fluent in written and spoken English, until he returns. The senior crew member must know the requirements of the job and understand the precautions/conditions stated on the work permit. The senior crew member's name and badge number must be written on the permit by the issuer.

5. RIGHT TO STOP WORK AND CANCEL PERMITS

5.1 The issuer may stop a job and withdraw a work permit if he determines that safety of the job does not meet the conditions specified on the work permit.

5.1.1 When work is stopped the issuer must pick up the work permit, write on the permit the reasons for the work cancellation, the time, and other relevant information.

5.1.2 When conditions are safe again the issuer may issue a new work permit.

5.2 The receiver has the responsibility to stop work and advise the issuer of his action any time he determines that the conditions of the job do not meet the conditions on the work permit. He and the issuer shall take action to correct deficiencies and resume the job.

5.3 All unnecessary personnel whose presence adversely affects the safety of the job must be kept away from the job site or work shall be stopped.

★★ 5.4 All work permits are cancelled in the event of an emergency, such as a fire or toxic release. Permits may be re-issued once the "all clear" has been declared and the work sites have been returned to their pre-emergency conditions.

★★ 5.5 If an unsafe condition develops when neither the issuer nor the receiver is available at the work site, the issuer's designated representative or the receiver's delegate has the authority to stop the job.

6. CLOSING WORK PERMITS

★ 6.1 Work permits shall be closed by both the issuer and the receiver signing the permit. When distance and remoteness make signing impractical, an alternative closing method is determined and stated on the work permit when it is issued. Both the issuer (or his designated representative) and receiver shall conduct a site inspection to ensure that the work area has been returned to its pre-work permit condition before the work permit can be closed. If the work has not been completed, the work site shall be left in a safe and secure condition.

7. FILING WORK PERMITS

7.1 The issuer shall keep the original copy of the work permit or permits for a minimum of three (3) months.

8. CERTIFICATION OF ISSUERS AND RECEIVERS OF WORK PERMITS

8.1 Work permit courses are conducted by the Loss Prevention Department. The purpose of the courses is to acquaint potential issuers/receivers/gas testers with the work permit system, to administer written tests and to issue work permit certificates to successful candidates.

★★ 8.2 Issuer candidates are required to successfully complete both the Gas Tester and Hazard Recognition courses as pre-requisites before being allowed to take the issuer's certification exam. Both of these courses must be completed every two years.

★ 8.3 Work permit certificates will be issued by Loss Prevention to the employee's management indicating that they have successfully completed the certification exam for issuers, receivers, and/or gas testers as appropriate. Only when the certificate is signed by the employee's own division head, or in case of a contractor by his proponent organization division head, does the candidate become a certified issuer or receiver. Non-Saudi Aramco contractors will be certified by the Projects Review & Coordination Division, Saudi Aramco Affairs Services Department - refer to G.I. 887.000.

★ 8.4 The signing of a certificate provides a written record of the division head's and/or manager's acceptance that an issuer or receiver has sufficient knowledge and/or skills to perform assigned functions in restricted areas. This acceptance also indicates that an issuer or receiver understands the contents of this General Instruction.

8.5 Any person issuing or receiving a work permit must have in his possession a valid issuer's or receiver's work permit certificate, as appropriate, at the time of issuing or receiving permits.

★ 8.6 All organizations must maintain records of their work permit issuer/receiver certified personnel. Certificates expire two years after the date of issue. Accordingly, the issuers and receivers must be recertified every two years. Certificates cannot be extended, and will not be reissued when an employee transfers to another organization if there is less than 6 months remaining on the term of the certificate. If less than 6 months remains on the validity of the certificate, the issuer, receiver or gas tester must be recertified. If more than 6 months remains, the reissued certificates will have the same expiration as the original. Valid certificates can be reissued upon written request from the proponent organization's division head, with a copy of the original certificate attached.

9. PERIODIC REVIEWS

9.1 All organizations are required to review their own operations to ensure compliance with this General Instruction. In addition, Loss Prevention will conduct periodic reviews of the work permit system.

- فإننا نحيطكم بضرورة اتباع التعليمات التالية:
- الالتزام بتعقيم اليدين.
- إرتداء الكمامات و عدم نزعها عن الوجه.
- حافظ دائما على التباعد الجسدي بمقدار مترين بينك وبين الآخرين
- تجنب لمس العينين والأنف والفم.
- تغطية الأنف بالمنديل عند الكحة أو العطاس.
- إذا لاحظت ارتفاع درجة حرارة أو كحة فاعزل نفسك فورا واتصل على 937

IMPORTANT INSTRUCTIONS

BEFORE VISITING ANY LOCATION FOR INSPECTION AND BEFORE SUBMITTING YOUR BID

Due to the current circumstances in regards of Covid-19

Please note that the following instructions should be followed:

- Sanitize your hands regularly.
- Wearing face masks and not removing them.
- Always maintain a physical distance of two meters between you and others.
- Avoid touching the eyes, nose and mouth.
- Cover the nose with a tissue when coughing or sneezing.
- If you notice a high temperature or cough, isolate yourself immediately and call 937.
