1.1 General

Saudi Aramco provides a wide range of services at Ras Tanura Port (which includes Ju'aymah), Jeddah Marine Terminal, Duba Bulk Plant Terminal and Jazan Bulk Plant Terminal to support all visiting tankers with their operational requirements, from their arrival to their departure.

On each visit prior to each berthing, Masters are required to sign a Ship Assistance Fees Form, acknowledging their acceptance of applicable fees. Failure to do so will be grounds for rejection of any tendered Notice of Readiness or request to berth. Where a berthing operation is deemed un-chargeable by Saudi Aramco, the signed form will be retained for record keeping purposes only.

This annex outlines the fees applicable for such services.

1.2 Payment

The owners, operators and charterers of any ship calling at Ras Tanura Port, Jeddah Marine Terminal, Duba Bulk Plant Terminal and Jazan Bulk Plant Terminal are jointly liable to pay Saudi Aramco for services. Payment should be completed through an approved ship agent. Liable parties shall ensure payment is made timely.

Once full payment is received from any of the aforementioned parties, no further obligation shall rest on the others.

Failure to pay fees on time may result in the refusal to grant acceptance to the ship for future port calls at the port.
